From the Chairman's Desk

> Emphasis on technology upgradation and digitalization continues to enhance the allround customer experience.

Dear Stakeholders,

It is my pleasure to present your bank's Annual Report for the fiscal year ended 31 March 2026, which traces the bank's robust performance in terms of solid business growth and healthy profitability amidst the expanding reach of the bank. No doubt the year was tumultuous with flare up in West Asia (with no signs of abatement in Russia Ukraine war) adding to concerns on oil price front, inflation and the resultant likely impact on country's fiscal position, which is being brought back on track with focused efforts. The occasional shortfalls in banking system liquidity combined with steep fall in rupee added to the strains on the banking system, but policy makers timely actions have saved the system from further dire consequences.

Your bank continued to expand its footfalls in MSME domain, by catering to the needs of this segment spanning across different industries keeping a close monitoring on the quality of the portfolio. The bank has also stepped up its efforts in the retail to mid segment without compromising on sound parameters like credentials and track record of the borrower, good cash flows as also sound financials. Bank's sustained efforts to tone up recoveries have started showing good results with the declining share of Gross and Net NPA.

Emphasis on technology upgradation and digitalization continues to enhance the allround customer experience.

The Board, the Management and employees are endeavoring together in ensuring that the governance, compliance and assurance functions are given top priority even while the bank is progressing steadily in the path of growth.

Seeking your co-operation for further sustained progress.

Sincerely Yours

G. Mahalingam

Message from the MD & CEO

Dear Stakeholders,

It's truly a great honour and privilege to lead the 122-year-old franchise - I thank the Board, Regulator and Shareholder for approving my candidature.

My sincere gratitude to my predecessor - Dr. N. Kamakodi, for his mentorship and steadfastly supporting the smooth transition of leadership. Also from strategy perspective, I wish to carry forward the business model which we have been focusing for so many years.

For a Bank, which is born on the Banks of Cauvery, it is always emotional and inspiring to work for MSME and Agricultural sector. The development of MSME and Agriculture is a key for Nation Building and as a Bank, we are very proud and we would continue to focus on the same.

While we look ahead, we need to redefine Banking experience - the digital way has been our goal for some time. Our today's innovations should redefine the Banking paradigm in days to come. We continue to move forward with the motto of "Phygital" experience without missing the human touch.

We are wary of the use of Artificial Intelligence in Banking. While we are fully evaluating the pros and cons, we have also started evaluating on how and where to deploy AI. As a result, we have created a centre of Excellence in collaboration with SASTRA University and Industry partners - Centific Global Solutions, Inc. and Univerg to provide AI support. We intend to make use of the same for operational convenience and giving superior experience to our customers. Probably in the next Annual General Meeting - we can discuss the used case on how it has got deployed.

While we have discussed about Phygital and AI - we are seeing a big shift in the digital frauds in Banking. As a Bank, we are ensuring that we continue to invest in cyber security at a very rapid pace so that we don't leave any stones unturned here. We are also cognisant of the fact that right investment in digital and cybersecurity is need of the hour to keep our customers protected.

In terms of branch expansion, you would be very happy to know that we opened our 1000th branch in

"investment in digital and cyber security is need of the hour to keep our customers protected"

Ammachatiram near our birthplace at Kumbakonam. We are also happy to share that we opened our 975th branch at Jammu. We are proud to share that we are present from Kashmir to Kanyakumari.

We will continue to focus on technology and our core banking strategy will continue with customer at heart and employees as pillar.

I am sure and confident we will have another best year of performance in financial metrics and customer experience with cost optimisation as a key. Needless to say, governance and process will continue to take driver's seat while the Bank moves forward in the path of progress.

Thanking you

Yours faithfully

R. Vijay Anandh

Directors' Report

Dear Shareholders

The Board of Directors of your Bank is pleased to present the Annual Report on business and operations of your Bank together with the Audited Financial Statements for the Financial Year ended March 31, 2026.

ECONOMIC SCENARIO

Global

During the first half of FY 2025-26, global economy although already plagued by prolonged conflicts in West Asia and the Russia-Ukraine region, exhibited notable resilience amid heightened trade tensions and policy uncertainty. There was a surge in stockpiling of traded goods and increased spending on Artificial Intelligence (AI), signifying a strong risk appetite amidst rising trade barriers. In February 2026, the world witnessed a high level of escalation in the US-Iran conflict, which caused severe trade and supply disruptions with the prolonged shutdown of the prominent Strait of Hormuz, which is one of the world's most vital arteries of energy related trade. As a result, the global growth is experiencing strong headwinds with a sharp rise in energy prices and shortages of vital inputs such as crude oil, thereby escalating the geopolitical risk premium in the oil markets severely affecting maritime trade & commerce. Although global commodity prices of metal and gold have moderated, the financial markets have been experiencing extreme volatility.

The Global Banking Industry recorded the strongest Financial performance in over a decade in Calendar Year ['CY'] 2025. The Net Interest Margins of major banks expanded across the advanced economies. The Return on Equity, one of the major barometers of financial heath, for large banks exceeded 12% in America and 10% in Western Europe for the first time ever since the Global Financial Crisis. With the Central banks across Western Economies cutting rates, banks with stronger balance sheet and provisioning buffers built during years of higher rates, were better placed to manage losses without adversely affecting the capital base. The International Monetary Fund in its April 2026, World Economic Outlook, projected global growth at 3.1% for CY 2026 revised downwards from the earlier forecasts, due to drag in Trade policy, geo political conflicts and lingering effects of the global monetary tightening cycle. The IMF further predicts that the prolonged West Asia Conflict, would keep energy prices elevated, decelerate growth in oil importing economies, with little elbow room available for Central banks to ease rates.

Indian

At the commencement of FY 2025-26, the Indian economy was supported by momentum in private consumption and capital formation. The above-normal south-west monsoon resulted in a boost to rural consumption, expansion in services sector and a revival in urban consumption ably supported by an increase in private-sector investment activity. During the reporting year, India's Gross Domestic Product (GDP) registered a six-quarter high of 8.2% due to strong domestic demand (Festive season period) even amidst global trade & policy uncertainties. The Agriculture sector was supported by healthy Kharif crop production, higher reservoir levels & rabi crop production.

During the first half of the CY 2026, the domestic economic activity remained largely steady, even amidst the uncertainties experienced due to the prolonged West Asia Conflict. Merchandise exports recorded strong growth in April 2026, even though Freight & Insurance costs remained high. This year the south-west monsoon is expected to be deficient, particularly in parts of North and North-western India, potentially impacting agricultural activity and rural demand. However, the programmes and initiatives for crop diversification, water harvesting and conservation, climate-resilient practices, and short duration crops are expected to mitigate the impact. Services sector remained robust and sustained the momentum of the previous year, with GST rationalization and stable employment conditions supporting urban consumption. Sustained credit flows from banking & non-banking channels, Government CapEx programs, opening of the insurance sector to 100% FDI, ethanol blending program for energy transition etc., are expected to give a boost to investment activity in the near term. The headline CPI inflation stood at 3.5% in April 2026, driven primarily by elevated food & fuel prices. Since May 2026, the retail crude prices have gone up cumulatively by 7.4%, for petrol and 8.4% for diesel.

The impact of higher global energy prices is also being felt in other inputs such as Commercial LPG, Industrial raw materials, chemicals, rubber & plastic products. Considering all the factors, the overall CPI inflation for FY 2026-27 is projected to be 5.1%, with Q1 at 4.2%, Q2 at 5.1%, Q3 at 5.9% & Q4 at 5.4%.

Several measures undertaken by the Government, including ECLGS 5.0 (Emergency Credit Line Guarantee Scheme) aimed at supporting the MSME & export sector, sustained efforts to increase domestic gas and crude oil supplies, and the promotion of domestically produced goods over imports, have strengthened the domestic economy's resilience to external shocks. On the external financing front, buoyant Foreign Direct Investment (FDI) and higher net FDI in 2025-26 reflect the sustained interests of global investors in India. However, during FY 2026-27, net FPI into India witnessed an outflow of USD 13.7 billion primarily from the equity segment. As on May 29, 2026 India's foreign exchange reserves stood at a healthy USD 682.3 billion.

Looking ahead, elevated energy and other commodity prices along with supply disruptions are likely to impact economic activity. Considering these factors, real GDP growth for FY 2026-27 is projected at 6.6% quarterly growth, with 6.6% in Q1, 6.3% in Q2, 6.5% in Q3 and 6.8% in Q4.

OUTLOOK

Considering the higher commodity and energy prices and shortage of inputs due to the issues in the Strait of Hormuz, the Central Government has been proactive in ensuring an adequate supply of inputs across critical sectors. On the services side, there has been a sustained momentum in the economic activity, due to GST Rationalization, healthy Balance Sheets of Financial Institutions and Corporates. Agricultural sector's prospects are supported by healthy reservoir levels, while Business expectations remain optimistic owing to the Government's focus on scaling up domestic manufacturing, across several strategic and frontline sectors supported by strong credit growth. Revival in private sector investment, is also expected to augur well for India's growth prospects. On the external front, merchandise exports in FY 2026-27 are likely to be adversely affected by disruptions to key shipping routes, escalation in freight & insurance costs and lower demand due to the prolonged West Asia conflict. Considering all these factors, real GDP growth for FY 2026-27 is projected at 6.6%, with Q1 at 6.6%, Q2 at 6.3%, Q3 at 6.5% and Q4 at 6.8% with the risks evenly balanced.

India, today stands at a juncture of relatively better macro-economic performance, despite geopolitical uncertainties, and volatile commodity market conditions. Domestic economic activity has exhibited resilience, supported by strong performance in industrial and services activity, broad-based demand and robust corporate performance. Inflation and external vulnerabilities are within the manageable limits. The Indian Financial system is entering this phase of global uncertainty with much stronger and healthier Balance Sheets, comfortable capital buffers, improved profitability and Non- Performing Assets (NPA's) at multi-decade lows.

BANK's PERFORMANCE

In the above backdrop, your Bank recorded a total business of ₹ 1,45,007 crore in FY 2026, a 24% increase of ₹ 28,415 crore over the previous year figure of ₹ 1,16,592 crore. The Net Profit of the Bank has increased to ₹ 1,326 crore from ₹1,124 crore, 18% increase over FY 2025 position. The Net Interest Income of the Bank stood at ₹2,830 crore. The Key Performance Indicators i.e., the Return on Assets of the Bank stood at 1.56%, Return on Equity stood at 13.35%, the Net Interest Margin of the Bank stood at 3.74% and the Cost to Income ratio stood at 47.93% during the reporting year. Domestic Treasury

The gross investments rose from ₹17,346 crore to ₹19,019 crore as of 31st March 2026. Out of this, total investments in Government Bonds alone were ₹18,873 crore, making up 99.23% of total Investments. The financial year started positively with a 25-basis point cut in repo rate, driven by inflation (CPI) falling to a six-year low of 3.2% and Brent Crude oil prices dropped from $72 to $62 per barrel due to increase in supply. The JP Morgan Government Bond Index-Emerging Markets (GBI-EM) has reached 10% weightage by regular inflow of FPI of $20 - $25 billion in April 2025. US treasury yields were volatile ranging 4% to 4.50% influenced by US trade policy announcements and geopolitical tensions. The US Fed reduced its policy rate cumulatively by 75 bps during the year. The Reserve Bank of India announced CRR cut by 100 bps and REPO rate cut by 125 bps during the year. RBI also injected durable liquidity of ₹16.30 trillion into the banking system through multiple rounds of Open Market Operations (OMOs), buy / sell swaps in forex markets and VRR to manage tightening cash conditions. In FY 2026, benchmark bond yields touched a low of 6.10% and reversed swiftly during the course of the year and closed at 7.03% on account of US trade tariff and West- Asia geopolitical tension. The Bank booked a profit of ₹96.84 crore during the year.

Forex Treasury

During the FY 2025-26, the Indian Rupee depreciated by roughly 11% against US dollar, hitting its weakest level in over a decade, closing near ₹94.83. The Rupee crossed the ₹95 per USD mark for the first time in late March 2026. The main reasons behind the Rupee's decline include persistent Foreign Portfolio Investor (FPI) outflows, elevated crude oil prices amid West Asia geopolitical tensions. Currently, the RBI has adopted a more 'pragmatic and flexible' stance, letting the Rupee find its market level instead of defending specific thresholds- a shift from its earlier policy. India's real GDP growth for FY 2026 projected at 7.6%, driven mainly by strong domestic consumption and investment. Indian forex reserves rose slightly to $688.06 billion as of March 31, 2026. The Japanese Yen experienced sharp volatility on carry trade unwinding when Bank of Japan-Central Bank raised its interest rate. As the Yen strengthened, it erased the carry-trade gains, forcing position to be unwound quickly. During the First & Second quarters, the US 10-Year Treasury yield surged to its highest level of 4.48% and crude oil prices went up to $120 per bbl due to the uncertainty over the import tariff imposed by US President, Donald Trump. In FY2025-26, profit on foreign exchange operations was ₹60.82 crore compared with ₹37.71 crore in the previous financial year.

NET WORTH & CAPITAL ADEQUACY RATIO

Net Worth

#Part B of employee's stock options scheme 2017 is specifically carved out for granting stock options to Whole-Time Director / Managing Director & CEO and Material Risk Takers (MRTs). Presently, stock options are granted to MD and CEO of the Bank under Part B. Since, all the employees covered under the Part B are senior management personnel, there is no separate disclosure made under head senior management personnel.

Employee compensation cost calculated as per the intrinsic value method for the financial year 2025-26 is ₹ 1,27,500 and Nil for the stock options granted under ESOS 2008 and ESOS 2017 respectively. If the Employee compensation cost was calculated as per fair value method as prescribed under Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021, the total cost to be recognized in the financial statement for the Financial Year 2025-26 would be ₹1,13,92,922.50. Consequently, net profit would have been increased by ₹1,13,92,922.50 and EPS would have been increased by ₹0.015 per share.

Further, as mandated by RBI, in case of Whole Time Director / Managing Director & CEO and Material Risk Takers (MRTs), the Bank must follow fair value of option for accounting ESOS. For the stock options granted to MD and CEO under Series IV during the financial year, the Bank has followed fair value of option.

We have also examined compliance relating to Secretarial Standards with respect to the meetings of the Board of Directors (SS-1) and General Meetings (SS-2) issued by the Institute of Company Secretaries of India.

During the period under review the 'Bank' has complied with the provisions of the Act, Rules, Regulations, Directions, Guidelines, Standards, etc. mentioned above, subject to the information made infra.

Due to a technical glitch on the website of the Ministry of Corporate Affairs there was a delay in two cases in filing e-forms and for which additional fees were paid by the Bank.

During the period under report, provisions of the following regulations were not attracted by the 'Bank' :

(i) The Securities and Exchange Board of India (Buy back of Securities) Regulations, 2018.

(ii) The Securities and Exchange Board of India (Delisting of Equity Shares Regulations) 2021.

(iii) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021.

(iv) Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011.

We further report that:

The Board of Directors of the 'Bank' is duly constituted with proper balance of Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice with agenda items supported by detailed notes thereon is given to all Directors to schedule the Board Meetings and Committee meetings and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meetings and for meaningful participation at the meetings. In respect of meetings held at short notice or meetings for which the agenda notes (other than those relating to Unpublished Price Sensitive Information (UPSI)) were sent at a notice of less than 7 days, the unanimous consent of the Board/Committee was taken for discussion of the said agenda items and the same has been recorded in the minutes.

Resolutions at the meetings of the Board of Directors of the Bank and Committees thereof are carried through, on the basis of unanimous decisions. If and when decisions are carried through on the basis of majority, the dissenting members' views are captured and recorded as part of the minutes. But there were no dissenting views during the year under report.

We further report that there are adequate systems and processes in the 'Bank' commensurate with the size and operations of the 'Bank' to monitor, to make requisite disclosures to the concerned authorities and thereby ensure compliance with applicable Laws, Rules, Regulations and Guidelines. As informed, the Bank has responded appropriately to communication received from various statutory / regulatory authorities including initiating actions for corrective measures, wherever found necessary. The Bank has system in place under a separate department to ensure compliance of all laws, rules and regulations applicable to bank.

We further report that during the audit period the 'Bank' had no specific events / actions, except the below mentioned events, having a bearing on the Bank's affairs in pursuance of the above referred Laws, Rules, Regulations, Guidelines, Standards, etc., referred to above:

The bank was imposed a penalty of ₹20,500/- by RBI under scheme of Penalties for bank branches and currency chests for deficiency in rendering service to the members of the public and a penalty of ₹50,000/- under scheme of penalty for non-replenishment of ATM's.

Event occurred after the reporting period We further report that after the closure of the audit period the bank was imposed a monetary penalty of ₹10.10 Lakhs by RBI by its letter dt. 22-05-2026 under Non-compliance with certain provisions of directions issued by RBI on 'Priority Sector Loan accounts' and for non-Reporting of Self Help Group (SHG) member level data to Credit Information Companies (CIC's).

REPORT ON CORPORATE GOVERNANCE

(Forming part of the Director's Report for the year ended March 31, 2026)

Corporate Governance is a system of rules, practices and processes by which an Institution is operated, directed and governed. The main principles of good Corporate Governance revolve around conducting the business with integrity, being transparent in all transactions, making all the necessary disclosures and complying with the applicable laws with a sense of accountability and responsibility towards all the stakeholders and commitment to conduct the business in an ethical manner. The goal of Corporate Governance is to manage the business to maximize long term value while safeguarding the interests of all stakeholders.

This Report on Corporate Governance is set out pursuant to the provisions of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, as amended ("Listing Regulations") and the Companies Act, 2013 ('the Act').

1. BANK'S PHILOSOPHY ON CORPORATE GOVERNANCE

City Union Bank Limited, (herein after called "the Bank") has been following robust Corporate Governance practices since its inception. The Bank believes that a good Corporate Governance structure is the one which directs and controls the affairs of the Bank to sustain and improve value creation for all stakeholders. Bank's governance framework recognizes Transparency, Fairness, Integrity, and Accountability as core values, and the management believes that the practice of each of these creates the right corporate culture for the institution.

It is to be recognized that Corporate Governance is not just a one stop destination but a continuous journey to consolidate and enhance sustainable value creation to the Bank by adhering to the core values.

The Bank continues to believe strongly in adopting and adhering to the best governance practices. The Bank always endeavors to achieve the highest levels of governance as a part of its accountability and responsibility towards the shareholder and all other stakeholders.

The Bank has a governance structure in place to bestow high standards of transparency, fairness, integrity and accountability for performance at all levels and to ensure and achieve excellence through professionalism, social responsiveness, sound business practices and optimum efficiency. This in turn enables the Bank to maintain a high level of business ethics to maximise the shareholders' value and to protect their interest.

The governance practices of the Bank aims to:

- enhance the long term interest of its stakeholders, provide good management standards, adopt prudent risk management techniques and comply with the required benchmark of capital adequacy, thereby safeguarding the interest of all its stakeholders such as shareholders, investors, depositors, creditors, customers, suppliers and employees, to maximise benefits to all.
- ensure the implementation of good governance practices through the Board of Directors.

The Bank continues to achieve Corporate Excellence by imbibing the following principles:

- Adhere to the Laws and Regulations in both letter and spirit.
- Total commitment to follow ethical practices in all facets of banking and at the same time to ensure efficiency in operations to maximise value and benefit to all stakeholders.
- To make employees accountable for completion of work within specified time lines, without compromising on quality and at the same time, adhering to risk controls and policy framework.
- Strict adherence to prudent Banking norms and values in the conduct of day-to-day Banking operations.
- A mix of experienced executive and Independent Directors who provide strategic direction, monitor performance and uphold fiduciary responsibilities.

E. PERFORMANCE EVALUATION

i. PROCESS

In line with the provisions of the Companies Act, 2013 and SEBI Listing Regulations, 2015, as amended from time to time, a formal annual evaluation process for assessing the performance of the Board, Board Level Committees, Part-time Chairman, Non-Independent and Independent Directors is conducted through a structured questionnaire covering various aspects of Board Governance, Composition, Competencies, Guidance etc., as approved by the Nomination and Remuneration Committee of the Board. The Nomination and Remuneration Committee reviews the performance evaluation criteria from time to time as per requirement.

The Board carries out an annual evaluation of its own performance, all individual Directors including Independent Directors (excluding the Director being evaluated) and of its Committees.

As per the Regulations contained under SEBI Listing Regulations 2015, from FY 2026 onwards, the Independent Directors of Top 2000 listed entities as per market capitalization are required to conduct at least two meetings in a financial year, without the presence of Non-Independent Directors and members of the management. Accordingly, the Independent Directors met twice during FY 2026, at their separate meeting to conduct the evaluation of Board, Chairman, Managing Director & CEO, Executive Director and also, the timeliness of flow of information between Board & Management.

ii. Performance Evaluation Criteria

Individual Directors and Chairperson (including MD & CEO and Independent Directors)

An annual internal assessment of all Directors on the Board of the Bank is carried out by the entire Board of Directors based on criteria as approved by the Nomination and Remuneration Committee viz., Qualification, Experience, Knowledge & Competency, Availability & Attendance, Deliberation, Contribution, Integrity, Independent views and judgement etc.

In respect of evaluation of Chairperson, additional criteria such as leadership capabilities and Board Level working relationships are taken into account.

The Managing Director & CEO and Executive Directors were assessed on additional criteria viz., Business Conduct, Bank's overall performance, Strategic Planning, Compliance and Governance areas.

While undertaking the evaluation process, the Director who is being evaluated does not participate.

iii. Board as Whole

Assessment is done based on structure of the Board including Directors' Competency and diverse expertise, frequency of meetings, quality of information called for, effectiveness of deliberation and discussions and follow up of assurance functions.

iv. Board Level Committees

The evaluation is done based on parameters viz., Composition of the Committee, Terms of Reference, Meetings, structure of Committee Meetings, Reconstitution, Rotation of members, effectiveness of discussions, directions issued etc.

v. Outcome of Evaluation

The reports of all evaluations conducted as aforesaid were placed before the Board and it was agreed by all Directors that the overall performance of the Board, Board Level Committees and individual Directors were satisfactory for the FY 2025-26.

F. CRITERIA FOR APPOINTMENT OF INDEPENDENT DIRECTORS

The detailed criteria for appointment of Independent Directors are mentioned under the Directors' Report forming a part of Annual Report. The terms of appointment of Independent Directors is hosted in the website of the Bank as per Regulation 46 of SEBI Listing Regulations, 2015.

All Independent Directors on the Board have confirmed that they meet the criteria of Independence under the Companies Act, 2013 and SEBI Listing Regulations, 2015. Further, the Board confirms that all Independent Directors fulfill the conditions specified under SEBI Listing Regulations, 2015 and are independent of the management.

G. DIRECTORS AND OFFICER'S INSURANCE

The Bank has undertaken 'Directors and Officer's Insurance' for all its Directors, including Independent Directors for a specific quantum and coverage of risks as determined by the Board of Directors of the Bank.

H. COMPLIANCE OF LAWS

The Bank has an exclusive Compliance Department headed by the Chief Compliance Officer which ensures compliance of all laws applicable to the Bank on a continuous basis and submits its report to the Board of Directors at regular intervals. Accordingly, the Board reviews such reports and ensures the status of compliance by the Bank.

3. COMPOSITION OF COMMITTEES OF THE DIRECTORS AND THEIR ATTENDANCE AT THE MEETINGS AS ON MARCH 31, 2026

The Bank, in order to facilitate informed decision making in the best of its interests, has constituted various Committees with pre-defined terms of reference and have delegated specific powers for effective functioning. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC SCENARIO

Global

During the first half of FY 2025-26, global economy although already plagued by prolonged conflicts in West Asia and the Russia-Ukraine region, exhibited notable resilience amid heightened trade tensions and policy uncertainty. There was a surge in stockpiling of traded goods and increased spending on Artificial Intelligence (AI), signifying a strong risk appetite amidst rising trade barriers. In February 2026, the world was plunged into the US - Iran conflict, causing severe trade and supply disruptions with the prolonged shutdown of the prominent Strait of Hormuz, which is one of the world's most vital arteries of energy related trade. As a result, the global growth went through strong headwinds with a sharp rise in energy prices and shortages of vital inputs such as crude oil, thereby escalating the geopolitical risk premium in the oil markets severely affecting maritime trade & commerce. Although global commodity prices of metal and gold have moderated, the financial markets have been experiencing extreme volatility.

The Global Banking Industry recorded the strongest financial performance in over a decade in Calendar Year ['CY'] 2025. The Net Interest Margins of major banks expanded across the advanced economies. The Return on Equity, one of the major barometers of financial heath, for large banks exceeded 12% in America and 10% in Western Europe for the first time ever since the Global Financial Crisis. With the Central banks across Western Economies cutting rates, banks with stronger balance sheet and provisioning buffers built during years of higher rates, were better placed to manage losses without adversely affecting the capital base. The International Monetary Fund in its April 2026 World Economic Outlook, projected global growth at 3.1% for CY 2026 (revised downwards from the earlier forecasts), due to drag in Trade policy, geo political conflicts and lingering effects of the global monetary tightening cycle.

Indian

At the commencement of FY 2025-26, the Indian economy was supported by momentum in private consumption and capital formation. The above-normal south-west monsoon resulted in a boost to rural consumption, expansion in services sector and a revival in urban consumption ably supported by an increase in private sector investment activity. At the close of 2025, India's Gross Domestic Product (GDP) registered a six-quarter high of 8.2% due to strong domestic demand (Festive season period) even amidst global trade & policy uncertainties. The Agriculture sector was supported by healthy Kharif crop production, higher reservoir levels & rabi crop production.

During the first half of 2026, the domestic economic activity remained largely steady, even amidst the uncertainties experienced due to the prolonged West Asia conflict. Merchandise exports recorded strong growth in April 2026, even though freight & insurance costs remain high. This year the south-west monsoon is expected to be deficient, particularly in parts of North & North-western India, potentially impacting agricultural activity & rural demand. However, the programmes and initiatives for crop diversification, water harvesting & conservation, climate-resilient practices, and focus on short duration crops are expected to mitigate the impact. Services sector remained robust and sustained the momentum of the previous year, with GST rationalization & stable employment conditions supporting urban consumption. Sustained credit flows from banking & non-banking channels, Government CapEx programs, opening of the insurance sector to 100 % FDI, ethanol blending program for energy transition etc., are expected to give a boost to investment activity in the near term. The headline CPI inflation stood at 3.5 % in April 2026, driven primarily by elevated food & fuel prices. Since May 2026, the retail crude prices have been raised cumulatively by 7.4 % for petrol and 8.4 % for diesel. The impact of higher global energy prices is also being felt in other inputs such as Commercial LPG, Industrial raw materials, chemicals, rubber & plastic products. Considering all the factors, the overall CPI inflation for FY 2026-27 is projected to be 5.1%, with Q1, at 4.2 %, Q2, at 5.1 %, Q3 at 5.9 % & Q4 at 5.4%. However with the recent normalization in oil prices, these estimates may undergo a downward revision.

Several measures undertaken by the Government, including ECLGS 5.0 (Emergency Credit Line Guarantee Scheme) are aimed at supporting the MSME & export sector, considering the fact that Udyam registrations crossed 7.3 crores as of December 2025. The Credit Guarantee Scheme coverage ceiling has been increased to 10 crores for eligible MSMEs, since the sector contributes to approximately 31% of India's GDP & 45% of merchandise exports. Sustained efforts to increase domestic gas and crude oil supplies, and the promotion of domestically produced goods over imports, have strengthened the domestic economy's resilience to external shocks. On the external financing front, buoyant Foreign Direct Investment (FDI) and higher net FDI in 2025-26 reflect the sustained interest of global investors in India. However, during FY 2026-27 so far, net FPI into India witnessed an outflow of USD 13.7 billion primarily from the equity segment. As on June 19, 2026 India's foreign exchange reserves stood at a healthy USD 672.58 billion.

Looking ahead, volatile energy & other commodity prices along with supply disruptions are likely to impact economic activity. Considering these factors, real GDP growth for FY 2026-27 is projected at 6.6 %, with 6.6 % in Q1, 6.3 % in Q2, 6.5 % in Q3 and 6.8 % in Q4. Even the IMF projects India's real GDP growth at 6.5% for FY 2026-27, moderating from 7.6% in FY 2025-26 amid higher energy costs and tighter global financial conditions rather than any structural internal weakness in the Indian Economy.

INDIAN BANKING SCENARIO

India's banking sector entered FY 2025-26 from a position of structural strength. The Gross NPA ratio for the banking system as a whole fell to a multi decadal low of approximately 2.1 % for half year ended September 2025, much below the peak level of 11.2 % in FY 2017-18, achieved through the implementation of RBI Asset Quality review and Insolvency & Bankruptcy Code resolution framework, years of sustained provisioning and recoveries from stressed assets.

During FY 2025-26 the Monetary Policy Committee of the Reserve Bank of India ("RBI") altered the monetary policy stance and progressively reduced the repo rate, the last such reduction being on December 05, 2025.The rate reduction lowered borrowing costs, which in turn supported credit demand in sectors such as retail loans, consumer durables and services.

The MPC has met twice since the commencement of FY 2026-27, in April & June 2026, when the world has been confronted with the West Asia conflict and war clouds looming large in other parts of the world with no immediate resolution in sight. The MPC noted that the global environment has deteriorated considerably since its last meet in April 2026 and the adverse implications of the extended disruptions in supply chains and elevated energy prices are reflected in the moderation of growth and increase in inflation projections since April. The MPC noted that there are considerable risks to its baseline assessment of inflation and growth due to the uncertainty on the duration of the war, the magnitude of spillover effects, and the pace of restoration of supply chains. The food outlook also remains uncertain on account of the sub-normal monsoon forecast and EL Nino.

Against this backdrop, the RBI, at the MPC meeting held on June 03 to June 05, 2026, voted unanimously and took the following important measures based on its detailed assessment of the current and evolving macroeconomic situation reinforcing a cautious policy stance.

- Policy Repo rate under the Liquidity Adjustment Facility (LAF) kept unchanged at 5.25 %.
- Standing Deposit Facility under the Liquidity Adjustment Facility (LAF) kept unchanged at 5.00 %.
- Bank Rate and Marginal Standing Facility Rate remained unchanged at 5.50 %.
- MPC decided to continue with a neutral stance.

The RBI, in order to attract foreign capital announced the following measures in the MPC meet:

- For Government Securities under Fully Accessible Route, the term of "specified securities" has been expanded to include new issuances of 15, 30 and 40 year tenor G-Secs.
- Tax benefits provided on FPI investment in G-Secs.
- Increase in Investment limits for NRI's & OCI's in equity instruments traded on Stock market without SEBI Registration.
- Concessional Forex Swap facility made available till September 30, 2026 for incentivizing External Commercial Borrowings (ECBs) by PSUs.
- The time line for realization of export proceeds restored to nine months.
- Swap facility made available for AD Banks with zero hedging cost for raising fresh 3–5 year FCNR (B) deposits till 30th Sep 2026.

YOUR BANK's PERFORMANCE

During the year FY 2026, the world economy at large was gripped by the ongoing war and economic turmoil in the various parts of West Asia & Russia-Ukraine region. To further add to the existing catastrophe, there was an outbreak of US-Iran conflict in February 2026 deepening the global crisis. Amidst this our Bank adopted a cautious approach and recorded a reasonable growth rate during the year. OPPORTUNITIES IN EVOLVING BANKING ENVIRONMENT

Banks are central to the core of any financial system worldwide, and India is no exception. India's Banking Sector, reflects the country's diverse economy with the Scheduled Commercial Banks (SCBs) with SCBs occupying the prime position in the banking industry. The major banks, with their extensive network of brick and mortar branches, have been meeting the banking needs of different segments of the population. Central to the core customer segment is India's large young population of tech-savvy users, which has driven the Banking industry towards adoption of new and latest technologies. The UPI facility has been a major success in India, and several countries including the advanced economies, are looking at India to replicate successful implementation. Non-bank financial intermediaries, spanning private credit funds, fintech lenders, and insurance-linked credit vehicles, continued to gain share in wholesale and consumer lending.

Technology expenses are escalating; AI infrastructure, core banking modernization, and cybersecurity investments are no longer optional. Banks that deferred these investments during the high-margin years now face a more difficult and challenging tasks in implementing the same in a new competitive environment. Customer behavior is shifting in ways that carry lasting revenue implications. Fintechs now account for a sizeable component of banking business and its revenues are growing at a rate faster than traditional banks. AI is reshaping competitive dynamics across banking industry. Institutions that deploy it effectively can improve efficiency, risk management, and customer engagement, while those who delay in implementation risk losing ground to digitally sound banks. For MSME-focused lenders, the opportunity lies in using technology to strengthen, not replace the relationship-led model that remains their core differentiator and strength. For such banks whose competitive advantage rests on relationship depth in the MSME and self-employed segment, requiring constant customer engagement, implementation of the latest technology in banking services becomes all the more vital in servicing its diverse clientele.

FINANCIAL INCLUSION

Financial Inclusion is a concept whereby banking and financial solution and services are offered to every individual without any forms of discrimination, ensuring that even the under privileged have easy access to banking channels. The objectives of financial inclusion are to provide the following:

1. Basic Savings Bank Deposit Accounts
2. Servicing products (including investment and pension)
3. Simple credit products and overdrafts linked with no frills account
4. Remittance and money transfer facilities

Your bank has witnessed tremendous progress in the successful implementation of financial inclusion, particularly to the citizens in the rural areas. The Bank has already implemented Pradhan Mantri Jan Dhan Yojana (PMJDY) Scheme and there are 2,01,756 accounts as on March 2026. The Bank has 89,252 Basic Savings Bank Deposit accounts. To cater the needs of customers of unbanked areas, the bank has established BC Outlets in those places and to provide Basic banking services through Business Correspondents (BCs). Your bank has 131 BCs and 2 BC outlets for rendering services to the village level beneficiaries. The Business Correspondents of the bank make regular visits to the villages and provide doorstep banking services.

Your Bank has been always keen in creating awareness on Financial Inclusion and also on the promotion of Government schemes for Social Welfare, Pension, Insurance viz., Atal Pension Yojana (APY), MUDRA, PMJJBY, PMSBY etc., The Bank has 96,622 APY Accounts, 55,005 PMJJBY Accounts 1,69,114 PMSBY Accounts.

Your Bank has got e-KYC facility and Aadhaar enabled Payment System (AePS), for rendering quick services to the rural public. Besides, the bank has deployed POS machines at various locations, which are very helpful for doing merchant transactions. The bank has continuously rendered uninterrupted Banking services in the unbanked areas with the help of digital banking services. Your bank is proud of extending contribution to the social welfare schemes of the Government, for Nation building.

As done in the past, 'Financial Literacy Week' is being conducted by the Bank with an aim to further financial literacy, developing credit discipline and encourage availing credit from formal financial institutions by the customers. As per the objectives of the National Strategy for Financial Education, focus of the Bank will be on the following three topics with a view to promote digital transactions in a more secured manner:

1. Convenience of digital transactions
2. Security of digital transactions
3. Protection of customers

Your Bank has conducted campaigns at various places for observing the Financial Literacy week in an effective manner and to educate its customers properly. Financial literacy week was observed on the theme 'KYC' with the tagline 'KYC-Your First Step to Safe Banking' and sub themes namely Basics of KYC, Central KYC registry and account hygiene and discipline.

AUTOMATION & DIGITALIZATION

Banking services have now moved from traditional branch banking to the customer's palm enabling them to do banking at their convenience and comfort. The advent of digital payments, driven by advancements of information technology and the easy availability of mobile networks has facilitated cashless transactions.

As part of the Digital Initiatives, our bank has been spreading its Self Service Bank Branches (e-Lounge) and enabling our ATMs / BRMs for cardless deposit and withdrawals, self-service kiosk for passbook and cheque deposit machine. Our Bank has established a Digital Banking Unit as per digital initiatives of Government of India. RISK MANAGEMENT

Systems and Processes:

The Bank is exposed to a variety of risks in the normal course of its business operations, such as Credit Risk, Market Risk, Operational Risk, Liquidity Risk and Reputation Risk. The core objective of risk management function is to maintain an appropriate balance between risk and return, while ensuring adherence to the risk policies approved by the Board of Directors. The identification, assessment, monitoring and management of risks remain integral to the Bank's overall governance framework. Business growth and revenue generation are evaluated in the context of the associated risks to ensure sustainable and prudent expansion.

The Bank has established a robust Risk Management Architecture under the active oversight and guidance of the Board of Directors. To strengthen risk governance, the Board has constituted a Risk Management Committee of Directors (RMCD), which periodically reviews the Bank's risk profile and oversees key risk areas.

Under the supervision of the RMCD, the Risk Management Committee of Executives (RMCE) ensures the effective implementation of Board-approved risk policies and strategies. The Committee provides directions on the policies, procedures, and systems required for the identification, measurement, monitoring, and control of various risks across the Bank.

The Bank's Risk Management function is headed by the Chief Risk Officer ('CRO'), who reports directly to the Managing Director & Chief Executive Officer and submits quarterly updates to the RMCD.

The Bank has a separate and independent Risk Management Department in place which oversees the management of all types of risks in an integrated fashion. The Risk Management team is responsible for assessing the Bank's overall risk exposure, defining risk appetite parameters, and formulating risk management policies and procedures. The Bank's risk management practices are aligned with industry standards and are designed to remain responsive to evolving business dynamics, regulatory requirements, and market conditions.

The Bank's risk management framework is designed to facilitate the prudent identification, assessment, monitoring, and mitigation of risks and comprises the following key elements:

- An independent risk management structure supported by a robust governance framework, with clearly defined roles, responsibilities, and accountability for risk ownership across the organization.
- Comprehensive governance standards, processes, and controls for the effective identification, measurement, monitoring, and management of risks.
- Well-defined policies and guidelines that support and govern risk-taking activities across the Bank.
- A Board-approved Risk Appetite Framework that articulates the level and types of risk the Bank is willing to assume in pursuit of its strategic objectives.
- Periodic stress testing and scenario analysis to evaluate the potential impact of adverse business, economic, and market conditions on the Bank's earnings, capital adequacy, and liquidity position.

The Risk Management Committee of Executives (RMCE) provides oversight of the Bank's enterprise-wide risk management framework and is supported by specialized management committees, including:

1. Credit Risk Management Committee (CRMC),
2. Asset Liability Committee (ALCO),
3. Operational Risk Management Committee (ORMC),
4. Model Risk Management Committee (MRMC), and
5. Management Committee on Monitoring Frauds (MCMF).

These committees are supported by cross-functional teams and business units to facilitate effective risk identification, assessment, monitoring, and mitigation across the organization.

The Bank follows a robust policy and governance architecture encompassing credit risk, market risk, liquidity risk, operational risk, information technology and cyber risk, model risk, fraud risk, climate and environmental risk, business continuity, operational resilience, and other emerging risk areas. These policies, frameworks, and standards are aligned with the Bank's strategic objectives, risk appetite, and regulatory expectations, and collectively support an integrated approach to Enterprise Risk Management (ERM).

The Bank has also embedded forward-looking risk management practices through stress testing, risk and control self-assessments, new product risk assessments, collateral and credit risk mitigation frameworks, vendor risk management, and climate risk management practices. These mechanisms enable the Bank to proactively evaluate potential vulnerabilities, strengthen risk controls, and enhance resilience under both normal and stressed operating conditions.

All risk management policies, frameworks, and standards are reviewed periodically to ensure continued relevance in light of evolving business requirements, regulatory developments, and emerging risk trends. Through its integrated risk management framework, the Bank remains well-positioned to identify and respond to changing risk dynamics while maintaining sound governance, operational resilience, and financial stability.

Operational Risk and Operational Resilience

The Bank continues to strengthen its operational risk management and operational resilience framework in line with evolving regulatory expectations and industry best practices. In accordance with the Reserve Bank of India's guidance on Operational Risk Management and Operational Resilience issued on April 30, 2024, the Bank has established robust frameworks for managing operational risks and ensuring the continuity of critical business services during periods of disruption.

The Bank's Operational Risk Management Framework provides a structured approach for the identification, assessment, monitoring, reporting, and mitigation of operational risks across its business and support functions. Complementing this, the Operational Resilience Framework focuses on enhancing the Bank's ability to deliver critical operations and services within acceptable levels during disruptions arising from internal or external events.

As part of its operational risk governance framework, the Bank maintains a comprehensive loss data by following a system for identification, recording, classification, reporting, and quantification of operational risk events. Operational loss events are systematically captured, categorized, and analyzed to facilitate risk assessment, trend analysis, and continuous improvement of internal controls. Near-miss incidents are also monitored as part of the Bank's proactive risk management approach, enabling early identification of emerging vulnerabilities and control weaknesses.

The Bank has established and maintained the requisite historical loss data repository in line with regulatory expectations.

Through these initiatives, the Bank continues to enhance its operational resilience, strengthen risk governance, and support the effective management of operational risks in an increasingly dynamic and technology-driven operating environment.

Stress Testing, Risk Assessment and Operational Risk Monitoring

The Bank employs stress testing and scenario analysis as integral components of its risk management framework to assess the potential impact of adverse yet plausible events on its capital, earnings, liquidity, and overall risk profile. These exercises are conducted periodically across key risk categories to evaluate the Bank's resilience under stressed conditions and to identify appropriate mitigation and contingency measures. The outcomes of stress testing are incorporated into the Bank's risk management and capital planning processes and are duly considered while assessing Pillar 2 risks under the Internal Capital Adequacy Assessment Process (ICAAP).

To further strengthen risk awareness and embed a strong risk culture across the organization, the Bank has implemented a Risk and Control Self-Assessment (RCSA) framework. The framework facilitates the identification, assessment, and monitoring of operational risks and controls at the business and process levels. Periodic assessments are undertaken across critical functions and operational areas, enabling proactive identification of control gaps and implementation of corrective actions where necessary. During the year, RCSA exercises were conducted in selected operational areas, including SARFAESI-related processes and branch operations.

The Bank also utilizes a Key Risk Indicator (KRI) framework as an important risk monitoring and early-warning mechanism. KRIs provide quantitative and qualitative insights into the Bank's operational risk profile and enable timely identification of emerging risks, control weaknesses, and adverse trends. Thresholds and trigger levels have been established for key indicators, and periodic reviews are undertaken by management to ensure that risks remain within the Bank's defined risk appetite and tolerance levels.

Contingency Funding Plan and Liquidity Risk Management

In line with the Reserve Bank of India's guidelines on Liquidity Risk Management, the Bank has established a comprehensive Contingency Funding Plan (CFP) as an integral component of its liquidity risk management framework. The CFP is designed to ensure the Bank's ability to effectively manage liquidity stress events and maintain adequate funding under adverse conditions, while continuing to meet its financial obligations in a timely manner and at a reasonable cost.

The framework encompasses a range of potential liquidity stress scenarios, including both institution-specific and market-wide disruptions. It identifies diversified contingency funding sources, assesses the availability and accessibility of such funding, and establishes clear governance, escalation, communication, and decision-making protocols to facilitate timely response during periods of liquidity stress.

The Bank periodically evaluates the effectiveness of its Contingency Funding Plan through scenario analysis and testing exercises. The CFP is reviewed and tested on a half-yearly basis, with a comprehensive annual review undertaken to ensure continued relevance and effectiveness. In addition, contingency funding sources and funding capacities are monitored and reviewed periodically to strengthen the Bank's preparedness and resilience against potential liquidity disruptions.

Through its robust liquidity risk management framework and contingency planning processes, the Bank remains well-positioned to manage unexpected funding pressures and maintain financial stability under stressed market conditions.

Capital Adequacy and Basel III Compliance:

The Bank is well placed in complying with Basel III Capital Regulation and as of 31st March 2026, the Bank maintained a strong capital position of 16.27% significantly exceeding the RBI-prescribed Basel III minimum requirement of 11.50%, including the Capital Conservation Buffer (CCB) of 2.50%. The substantial capital buffer underscores the Bank's financial strength, resilience, and capacity to support future business growth while absorbing potential stress scenarios.

The Bank currently computes capital requirements for Credit Risk, Market Risk, and Operational Risk under the Standardized Approach, Standardized Duration Approach, and Basic Indicator Approach, respectively, in accordance with the extant regulatory framework prescribed by the Reserve Bank of India (RBI). The Risk Management Department plays a central role in the identification, measurement, monitoring, and mitigation of risks across the Bank, thereby strengthening the Enterprise Risk Management (ERM) framework and promoting a proactive risk culture.

In line with RBI's ongoing efforts to enhance the risk sensitivity and resilience of the banking system, the Bank is actively preparing for the transition to the revised capital adequacy framework under the regulatory directions issued by RBI. The Bank has undertaken the necessary gap assessments, data validation exercises, and system enhancements to ensure readiness for migration to the New Standardised Approach for Operational Risk, as envisaged under the RBI Master Direction on Minimum Capital Requirements for Operational Risk dated June 26, 2023, and subsequent regulatory communications.

Pursuant to RBI's requirements, the Bank has successfully completed and submitted the prescribed data returns relating to operational risk as of March 31, 2025. The Bank continues to engage in impact assessment, process strengthening, and capacity-building initiatives to facilitate a seamless transition to the revised regulatory framework upon its implementation.

Internal Capital Adequacy Assessment Process:

The Bank has implemented a comprehensive Internal Capital Adequacy Assessment Process (ICAAP) in accordance with the Basel III framework and the regulatory guidelines issued by the Reserve Bank of India (RBI). The ICAAP framework is commensurate with the Bank's size, complexity, risk profile, and scope of operations, and forms an integral part of its overall risk management and capital planning processes. The ICAAP document provides a forward-looking assessment of the Bank's capital adequacy, including projected capital requirements for the next three financial years commencing from FY 2027. It outlines the strategies and action plans for maintaining adequate capital buffers to support business growth, absorb potential losses, and meet regulatory requirements under both normal and stressed conditions. The primary objective of ICAAP is to ensure that the Bank maintains sufficient capital in relation to its risk profile while fostering a robust risk management culture. The framework facilitates identification, assessment, monitoring, management, and mitigation of all material risks. It also enables the Bank to evaluate the adequacy of its capital position against current and emerging risks on an ongoing basis. As a key component of the Supervisory Review and Evaluation Process (SREP) under Pillar 2 of Basel III, the ICAAP provides the Board of Directors and the Reserve Bank of India with a comprehensive view of the Bank's risk profile, capital adequacy, and risk management practices, thereby supporting informed decision-making and long-term financial resilience.

Pillar 3 disclosures:

In compliance with the Basel III framework and the regulatory requirements prescribed by the Reserve Bank of India (RBI), the Bank publishes Pillar 3 disclosures on a quarterly basis through its website and annually as part of the Annual Report. These disclosures are made in accordance with the Bank's Board-approved Disclosure Policy and the applicable RBI guidelines. The Pillar 3 disclosures are aimed at enhancing transparency and market discipline by providing stakeholders with comprehensive information on the Bank's capital structure, capital adequacy, risk exposures, risk assessment processes, and risk management practices.

Leverage Ratio:

The Basel III Leverage Ratio serves as a non-risk based supplementary measure to the risk-weighted capital adequacy framework and is designed to constrain the excessive build-up of leverage in the banking system. In accordance with the Reserve Bank of India's Basel III guidelines, banks are required to maintain a minimum Leverage Ratio of 3.50%.

The Bank continues to maintain a strong leverage position of 10.04%, significantly higher than the regulatory minimum requirement of 3.50%, reflecting its prudent capital management practices and robust balance sheet strength.

The Bank's strong leverage position provides an additional layer of resilience against potential stress events and complements its risk-based capital adequacy framework.

Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR):

The Liquidity Coverage Ratio (LCR) framework is designed to enhance the Bank's short-term resilience to potential liquidity stress events by ensuring the maintenance of an adequate stock of unencumbered High-Quality Liquid Assets (HQLAs). These assets can be readily converted into cash to meet liquidity requirements over a 30-calendar-day stress period under a severe but plausible liquidity stress scenario. The framework supports the Bank's ability to withstand short-term liquidity disruptions and strengthens its overall liquidity risk management practices.

Net Stable Funding Ratio (NSFR) under the Basel III Framework on Liquidity Standards is aimed at promoting the long-term resilience of banks by encouraging the use of stable and sustainable sources of funding. The NSFR measures the amount of Available Stable Funding (ASF) relative to the Required Stable Funding (RSF) and seeks to reduce funding risk over a longer-term horizon.

The Bank has automated the computation and monitoring of the Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR) and Structural liquidity during the third quarter of current financial year, thereby enhancing the accuracy, efficiency, and timeliness of liquidity risk reporting and oversight.

The Bank closely monitors its Liquidity coverage & structural liquidity position, while maintaining adequate levels of stable funding to support its business activities and balance sheet growth. Throughout the year, the Bank consistently maintained its LCR and NSFR well above the minimum regulatory requirement of 100% prescribed by the Reserve Bank of India. This reflects the banks strong and stable funding profile, prudent asset-liability management practices, and a comfortable buffer over the regulatory threshold. The sustained maintenance of robust liquidity metrics demonstrates the Bank's sound liquidity risk management framework and enhances its resilience to potential liquidity stress scenarios.

Risk Culture and Future Readiness

The Bank has continuously strengthened and refined its risk management framework to address the evolving risk landscape, emerging regulatory expectations, and changing business dynamics. Over the years, the Bank has developed a robust risk governance structure that integrates risk management into strategic planning, business decision-making, and day-to-day operations.

The Bank follows a proactive approach to risk management, wherein risks are identified, assessed, monitored, and mitigated at the point of origination through clearly defined ownership and accountability across business and functional units. Periodic reviews of Management Information Systems (MIS), risk indicators, stress-testing outcomes, and portfolio performance enable timely identification of emerging risks and facilitate informed decision-making at all levels of the organization.

The Bank remains committed to fostering a strong risk culture that promotes prudent risk-taking, accountability, transparency, and continuous improvement. Supported by an integrated Enterprise Risk Management framework, robust internal controls, and active oversight by the Board and Senior Management, the Bank is well-positioned to navigate uncertainties, enhance resilience, safeguard stakeholder interests, and pursue sustainable growth while maintaining a sound risk profile.

Inspection and Audit Framework

The Bank has a comprehensive Inspection and Audit framework to ensure adherence to laid-down systems, procedures and regulatory guidelines across all operations. A structured system of Risk-Based Supervision (RBS) is in place for branches through RBIA, Concurrent Audit, Risk Focused Credit Audit, Jewel Loan Audit, Remote Audit and Management Audit enabling continuous monitoring and timely identification of risks.

Risk-Based Internal Audit (RBIA) is conducted at branches with a focus on prioritizing audit assignments and optimizing resource allocation based on the level of inherent and control risks. Concurrent Audit acts as an early warning mechanism for detecting irregularities and preventing fraud. The Bank has implemented a robust KYC and AML inspection mechanism to ensure compliance with regulatory requirements. Periodic cash inspections are conducted at the Currency Chest to verify the accuracy of chest transactions and surprise cash verification at the branch level to ensure correctness of cash balances.

Management Audit evaluates the adequacy and effectiveness of decision-making processes across key functional areas, including Head Office departments, Computer Systems Department, Business Development Centre, International Banking Division, and Central Processing Hubs (CPHs). Information Systems Audit (ISA) focuses on assessing IT-related risks and evaluating the adequacy of controls implemented to mitigate such risks.

The Audit Committee of the Board (ACB) oversees the effectiveness of the internal audit function, including its structure, coverage, and frequency. It provides strategic guidance and ensures continuous strengthening of the control environment. The Bank also undertakes self-assessment of internal financial controls through periodic testing and validation. Inspection and Audit functions independently evaluate the adequacy, operational effectiveness, and efficiency of the Bank's internal controls, risk management systems, governance processes, and overall compliance framework. A strong internal control framework ensures strict adherence to regulatory guidelines by all branches and departments, thereby supporting sustainable growth while mitigating operational risks.

HUMAN RESOURCE DEVELOPMENT / INDUSTRIAL RELATIONS

Human Resource Development and Industrial atmosphere play a prominent role in an organization's growth and our Bank is maintaining cordial relationship with its employees at all times. It is pertinent to note here that there has not even been a single occasion of employee's unrest in the Banking history of CUB. As a part of HR strategy, the Bank offers its employees various monetary and non-monetary benefits, based on their performance in the form of ESOP, Performance Linked Pay (PLP) and Ex-gratia thereby ensuring that each employee feels himself/herself as part and parcel of the Bank and strives hard to deliver to the best of his/her abilities.

In line with the Bank's expansion plans, 74 new branches were opened in various States during the year 2025-26 for which the Human Resources Department provided adequate manpower. In order to identify the Right Person for the Right Job, Psychometric tests are also included in the recruitment process of the Bank. Employees are identified and imparted trainings at various areas of banking. Job rotation is also being followed to ensure that each and every employee gains experience in all the areas of banking.

In tune with the future expansion, the bank is constantly upgrading and revisiting its manpower by developing a talent pool. The members of the talent pool are being groomed by imparting those trainings in our staff college at Chennai and Kumbakonam and also training at various center of excellence like SIBSTC, NIBM, CAFRAL, IDRBT, ASCI, FEDAI, FIMMDA, CAB RBI, NIBM, IIM, Great Lakes Chennai, IFMR, GSP, Lonavala, IIBF, IMAGE, NIBSCOM etc. As on 31st March, 2026, the Bank has 8,894 employees. The cadre wise details of them are given below of:

Cadre	Number of Employee(s)
Managing Director and CEO	1
Executive Director	2
Executives cadre	141
Management cadre	4,425

POSH Act implementation mechanism in the Bank

The bank has a policy on Prevention of Sexual Harassment at workplace, which provides protection for Women employees working in the organization. An internal compliance committee has been set up to redress the complaints received under Sexual Harassment.

OUTLOOK

Considering the higher commodity & energy prices and shortage of inputs due to disruptions in the Strait of Hormuz, the Central Government has been proactive in ensuring an adequate supply of inputs across critical sectors to minimize supply chain disruptions. On the services side, there has been a sustained momentum in the economic activity, due to GST rationalization, healthy Balance Sheets of Financial Institutions & Corporates. Agricultural sector's prospects are supported by healthy reservoir levels, while Business expectations remain optimistic owing to the Government's focus on scaling up domestic manufacturing, across several strategic and frontline sectors supported by strong credit growth. Revival in private sector investment, is also expected to augur well for India's growth prospects. On the external front, merchandise exports in FY 2026-27 are likely to be adversely affected by disruptions to key shipping routes, escalation in freight & insurance costs and lower demand due to the prolonged West Asia conflict. Considering all these factors, real GDP growth for FY 2026-27 is projected at 6.6%.

India today stands on the cusp of a relatively better macro-economic performance, despite geopolitical uncertainties, and volatile commodity market conditions. Domestic economic activity has exhibited resilience, supported by strong performance in industrial and services activity, broad-based demand and robust corporate performance. Inflation and external vulnerabilities are within manageable limits. The Indian Financial system is entering this phase of global uncertainty with much stronger and healthier Balance Sheets, comfortable capital buffers, improved profitability and Non- Performing Assets (NPA's) at multi-decade lows.

INDEPENDENT AUDITOR'S REPORT

To the Members of

CITY UNION BANK LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the Standalone Financial Statements of City Union Bank Limited ('the Bank'), which comprise the Balance Sheet as at 31 March, 2026, the Profit & Loss Account, and the Cash Flow statement for the year then ended, and notes to the Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information, and incorporated in these Standalone Financial Statements are the returns of 27 branches / offices audited by us and 927 branches/ offices audited by other Statutory Branch Auditors. The branches audited by us and those audited by other auditors have been selected by the Bank in accordance with guidelines issued to the Bank by the Reserve Bank of India.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Banking Regulations Act, 1949 as well as Companies Act, 2013 (the 'Act') in the manner so required for banking companies and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules, 2006, as amended ("Accounting Standards") as applicable to banks and other the accounting principles generally accepted in India, of the state of affairs of the Bank as at 31 March, 2026, and its Profit and its Cash Flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing ('SAs') specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements Section of our report. We are independent of the Bank in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements of the current year ending 31 March, 2026. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

	Key Audit Matters	How our Audit procedures addressed the Key Audit Matters
A.	**Income Recognition, Asset Classification and Provisioning (IRACP) on Loans & Advances** (Reference to Schedule 9 read with Statement of Accounting Policies Note C.3 of Schedule 17 to the Standalone Financial Statements)	We have assessed the design, implementation and operating effectiveness of key internal controls and compliance with IRACP and other RBI guidelines, and assessed the Bank's loan policies for sanctioning of loans, documentation, review of credit, identification and provisioning of non-performing loans & advances, and planned our audit accordingly.

	Key Audit Matters	How our Audit procedures addressed the Key Audit Matters
	Loans and Advances constitute the largest class of Assets forming 67.90% of the total assets of the Bank as on the year ended 31 March, 2026. The income recognition, asset classification and provisioning on advances done by the bank is governed by the directives / regulations issued by the Reserve Bank of India (RBI). The loans and advances are accounted in the Core Banking Solution (CBS) and the identification of non-performing loans and advances is system driven and in accordance with IRACP norms. The management also relies on independent external valuations, legal advice, other professional inputs and makes estimates and judgments to determine the income recognition, asset classification and provisioning for losses on loans and advances.	We have performed substantive audit procedures relating to income recognition, classification of advances into performing and non performing advances, restructured advances, provisioning and security valuation. We have considered the accounts reported as Special Mention Accounts ("SMA") in RBI's Central Repository of Information on Large Credits (CRILC). Performed other procedures including but not limited to the following: • Selected samples of performing loans and assessed independently as to whether those should be classified as NPA, security valuation, Financial Statements and other qualitative information of the borrowers. • Performed inquiries with the management of the Bank to ascertain if there were indicators of stress or an occurrence of an event of default in a particular loan account or any product category which needed to be considered as NPA and the steps taken to mitigate the risks involved. • For NPAs identified, tested on a sample basis the asset classification dates, value of available security, income reversal and provisioning as per IRACP norms and recomputed the provision for NPA wherever required. • We have also relied on the work performed by the Branch Auditors, reports of Internal Audit, Systems Audit, Concurrent Audit, Other Audits, work done by lawyers, legal experts, independent valuers and other professionals, in accordance with SA 600 "Using the Work of Another Auditor" and SA 620 "Using the Work of an Auditor's Expert". • Assessed the appropriateness and adequacy of disclosures in the Standalone Financial Statements against RBI guidelines / circulars.
B.	**Information Technology ('IT') Systems and Controls for Financial Reporting** The IT environment of the Bank involves a large number of independent and interdependent IT systems used in the business operations of the Bank for processing and recording a large volume of transactions at multiple locations. There is a high degree of reliance and dependency on the IT systems for the financial reporting process of the Bank. We have identified IT systems and controls as a key audit matter	We have reviewed the Bank's information technology, information security, cyber security, and the IT outsourcing policies. We have also reviewed the IT Governance, BCP/ DRP of the Bank, adequacy of the IT policy and effective implementation of the same. We have reviewed the design and operating effectiveness of controls across the User Access Management, Change Management as well as effectiveness testing of automated business process controls.

Key Audit Matters	How our Audit procedures addressed the Key Audit Matters
because of the high level of process automation, complexity of the IT architecture of the Bank and its relevance and impact on the financial reporting process.	We have tested the application controls and changes to applications and database, segregation of duties as per SOP and also reviewed the mapping of interfaces between systems for generating financial information for reporting. We have tested the controls in the core banking solutions and treasury systems. This included testing the integrity of system interfaces, the completeness and accuracy of data feeds, system reconciliation controls and automated calculations.

Information Other than the Standalone Financial Statements and Auditors' Report Thereon

The Bank's Board of Directors is responsible for the other information. The other information comprises the Chairman's Statement, CSR initiatives, Director's Report, Annexures to Director's Report, Shareholders Information, Business Responsibility Report, Corporate Governance Report, Management Discussions & Analysis Report, List of Branches, Basel III Disclosures, Decade of Progress included in the Bank's Annual report, but does not include the Standalone Financial Statements and our auditors' report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and the Pillar 3 disclosure and the Basel III Disclosures, and accordingly, we do not express any form of assurance or conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the other information, including annexures in the annual report thereon, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Bank's Board of Directors is responsible for the matters stated in Section 134 (5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Bank in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, in so far as they apply to the Bank and provisions of Section 29 of the Banking Regulation Act, 1949 and the circulars and guidelines issued by Reserve Bank of India ('RBI') from time to time. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act and the RBI Guidelines for safeguarding of the assets of the Bank and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the Management and Board of Directors are responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with Standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(I) of the Act, we are also responsible for expressing our opinion on whether the Bank has adequate internal financial controls with reference to the Standalone Financial Statements and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the bank to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our Audit work and evaluating the results of our work; and (ii) to evaluate the effect of identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year ending 31 March, 2026, and are therefore the key audit matters.

We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters:

We did not audit the financial statements / information of 927 branches / offices included in the Standalone Financial Statements of the Bank whose financial statements / financial information reflect total advances of ₹53,040.05 Crore and deposits of ₹59,200.44 Crore as at 31 March, 2026 as considered in the Standalone Financial Statements. These branches and offices cover 79.52 % of total advances and 75.60 % of deposits for the year ended 31 March, 2026.

Annexure A

To the Independent Auditors' Report of even date on the Standalone Financial Statements of City Union Bank Limited [Refer paragraph 3(g) Report on other legal and regulatory requirements in our Independent Auditors' Report]

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act 2013

To the Members of

CITY UNION BANK LIMITED

We have audited the Internal Financial Controls Over Financial Reporting ("IFCoFR") with reference to the Standalone Financial Statement of City Union Bank Limited ("the Bank") as of 31 March, 2026 in conjunction with our audit of the Standalone Financial Statements of the Bank for the year ended on that date.

Management's Responsibility for Internal Financial Controls over Financial Reporting

The Bank's Management and Board of Directors are responsible for establishing and maintaining internal financial controls based on Internal Control over Financial Reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI''). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its Business, including adherence to the Bank's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Bank's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an Audit of Internal Financial Controls and issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Banks' Internal Financial Controls System over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Bank's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Bank's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Bank; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Bank are being made only in accordance with authorizations of management and directors of the Bank; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Bank's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of inherent limitations of internal financial controls over financial reporting, including the possibility of collusion improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Bank has, in all material respects, an adequate internal financial controls systems over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2026, based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Other Matters

Our report, insofar as it relates to the operating effectiveness of internal financial controls with reference to financial statements of 927 branches/offices is based on the reports of the respective statutory branch auditors of those branches.

Our opinion is not modified in respect of this matter.

SCHEDULE - 17: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES FORMING AN INTEGRAL PART OF BALANCE SHEET AND PROFIT AND LOSS ACCOUNT

A. BACKGROUND

City Union Bank Limited (the Bank), incorporated in Kumbakonam, India is a publicly held Banking Company governed by the Banking Regulation Act, 1949, the Companies Act, 2013 and other applicable Acts/Regulations and is engaged in providing a wide range of banking and financial services including commercial banking and treasury operations.

B. BASIS OF PREPARATION

The Financial Statements are prepared under the historical cost convention following accrual basis of accounting, unless otherwise stated, using going concern assumption, and conform in all material aspects to the Generally Accepted Accounting Principles (GAAP) in India, which comprises applicable statutory provisions, regulatory norms/guidelines and extant disclosure norms prescribed by the Reserve Bank of India(RBI), Accounting Standards (AS) issued under Section 133 of the Companies Act 2013 read together with the Companies (Accounting Standards) Rules, 2021, Banking Regulation Act, 1949 and practices currently prevalent in the banking industry in India. The accounting policies adopted in the preparation of Financial Statements are consistent with those followed in the previous year.

USE OF ESTIMATES

The preparation of Financial Statements in conformity with GAAP require the management to make estimates and assumptions in the reported amounts of Assets and Liabilities (including Contingent Liabilities) as of the date of the Financial Statements and the reported income and expenses during the reporting period. Management believes that the estimates used in preparation of the Financial Statements are prudent and reasonable. Actual results could differ from these estimates. Any revision in the accounting estimates is recognised prospectively in the current and future periods.

C. SIGNIFICANT ACCOUNTING POLICIES

1. REVENUE RECOGNITION

Income and Expenditure are accounted on accrual basis, except the following;

a. Interest on Non-Performing Advances (NPA) and Non-Performing Investments (NPI) are recognised upon realisation as per the prudential norms prescribed by RBI.

b. Interest on overdue bills, commission (excluding insurance commission), exchange, brokerage and rent on lockers are accounted on realization.

c. Dividend on equity shares, preference shares and mutual fund units is accounted as income when the right to receive the dividend is established.

In case of suit filed accounts, related legal and other expenses incurred are charged to Profit and Loss Account and on recovery the same are accounted as income.

2. INVESTMENTS

3. LOANS / ADVANCES AND PROVISIONS THEREON

3.1 Advances have been classified as per the Asset Classification norms laid down by the Reserve Bank of India. The required provisioning for Standard Assets and for Non Performing Assets have been made as per the Regulatory norms.

3.2 Advances shown in the Balance Sheet are net of specific provisions, technical write offs and ECGC/DICGC claims received.

Partial recoveries in Non Performing Assets are apportioned first towards charges and interest, thereafter towards principal.

3.3 NPAs are classified into Sub-standard, Doubtful and Loss Assets based on the following criteria stipulated by RBI:

i. Sub-standard: A loan asset that has remained non-performing for a period less than or equal to 12 months.

ii. Doubtful : A loan asset that has remained in the sub-standard category for a period of 12 months.

iii. Loss : A loan asset where loss has been identified but the amount has not been fully written off.

3.4 Provisions are made for NPAs as per the extant guidelines prescribed by the regulatory authorities, subject to minimum provisions as prescribed below:

Substandard Assets:

i. A general provision of 15% on the total outstanding;

ii. Additional provision of 10% for exposures which are unsecured.

iii. Unsecured Exposure in respect of infrastructure advances where certain safeguards such as escrow accounts are available-20%.

Doubtful Assets :

- Secured portion	i. Upto one year	-	25%
	ii. One to three years	-	40%
	iii. More than three years	-	100%
- Unsecured portion		-	100%

Loss Assets :

100% to be provided on the total outstanding;

3.5 Floating Provisions:

The Bank has a policy for creation and utilisation of floating provisions separately for advances, investments and general purposes. The quantum of floating provisions to be created is assessed at the end of the financial year. The floating provisions are utilised only for contingencies under extraordinary circumstances specified in the policy with prior permission of Reserve Bank of India.

3.6 Provision for Country Exposure:

In addition to the specific provisions held according to the asset classification status, provisions are also made for individual country exposures (other than the home country). Countries are categorised into seven risk categories, namely, insignificant, low, moderately low, moderate, moderately high, high and very high and provisioning made as per extant RBI guidelines. If the country exposure (net) of the Bank in respect of each country does not exceed 1% of the total funded assets, no provision is maintained on such country exposures. The provision is reflected in Schedules of the Balance Sheet.

3.7 Provision for unhedged foreign currency exposure:

Provision for Unhedged Foreign Currency Exposure of borrower entities is made considering their unhedged exposure to the Bank.

4. FIXED ASSETS, DEPRECIATION & AMORTIZATION

4.1 Premises, Software and other Fixed Assets are accounted at acquisition cost less depreciation. Cost includes cost of purchase and all expenditure like site preparation, installation costs and professional fees incurred on the asset before it is ready to use.

4.2 Capital work-in-progress includes cost of fixed assets that are not ready for their intended use.

4.3 Depreciation has been provided on the composite value for premises acquired with land and building, where cost of the land is not separately identifiable.

4.4 The Bank has provided depreciation based on useful life of the assets in line with Schedule II of the Companies Act, 2013. Depreciation is charged over the estimated useful life of the fixed asset on a straight-line basis. Depreciation on assets purchased and sold during the year is provided on a pro-rata basis.

5. EFFECTS OF CHANGES IN THE FOREIGN EXCHANGE RATE

5.1 Assets and Liabilities denominated in Foreign Currencies are translated at the rates notified by FEDAI at the close of the year. Profit or Loss accruing from such transactions is recognised in the Profit and Loss Account.

5.2 Income and Expenditure items have been translated at the exchange rates prevailing on the date of the transactions.

5.3 The Bank does not have a branch in any Foreign Country.

5.4 Outstanding Forward Exchange contracts are revalued at the exchange rates notified by FEDAI and the resultant net gain or loss is recognised in the Profit and Loss Account.

5.5 Foreign Currency Guarantees, Acceptances, Endorsements and other obligations are reported at the FEDAI notified closing exchange rates prevailing on the date of the Balance Sheet.

6. EMPLOYEE BENEFITS

6.1 Payments to defined contribution schemes such as Provident Fund and Employees Pension Fund are charged as expenses as and when they fall due.

6.2 Provision towards leave encashment is accounted on actuarial basis in accordance with Accounting Standard 15 (revised 2005) issued by ICAI.

6.3 Payments to the Group Gratuity Life Assurance Scheme of the Life Insurance Corporation of India towards gratuity liability are charged as expenses as and when they fall due.

7. EMPLOYEES STOCK OPTION SCHEME

The Employee Stock Option Scheme provides for grant of equity stock options to employees that vest in a graded manner. The Bank follows the intrinsic value method to account for its employee compensation costs arising from grant of such options. The excess of fair market price over the exercise price shall be accounted as employee compensation cost in the year of vesting. The fair market price is the latest closing price of the shares on the stock exchanges in which shares of the Bank are largely traded immediately prior to the date of meeting of the compensation committee in which the options are granted.

8. SEGMENT REPORTING

The Bank recognises the Business Segment as the Primary Reporting Segment and Geographical Segment as the Secondary Reporting Segment, in accordance with the RBI guidelines and in compliance with the Accounting Standard 17.

Business Segment is classified into (a) Treasury (b) Corporate and Wholesale Banking, (c) Retail Banking (includes Digital Banking Units) (d) Other Banking Operations.

9. EARNINGS PER SHARE

Basic earning per share is calculated by dividing the net profit of the year by the weighted average number of equity shares.

Diluted earning per share is computed using the weighted average number of equity shares and dilutive potential equity shares.

10. IMPAIRMENT OF ASSETS

An assessment is made at each balance sheet date whether there is any indication that an asset is impaired. If any such indication exists, an estimate of the recoverable amount is made and impairment loss, if any, is provided for.

11. PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

11.1 In conformity with AS.29 "Provisions, Contingent Liabilities and Contingent Assets" issued by the Institute of Chartered Accountants of India, the Bank recognizes provision only when:

a) It has a present obligation as a result of a past event.

b) It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and

c) A reliable estimate of the amount of the obligation can be made.

11.2 No provision is recognized for :

i. Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the bank; or

ii. Any present obligation that arises from past events but is not recognized because

a) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or

b) A reliable estimate of the amount of obligation cannot be made.

Such obligations are recorded as Contingent Liabilities. These are assessed at regular intervals and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for, except in the extremely rare circumstances where no reliable estimate can be made.

11.3 Contingent Assets are not recognized in the Financial Statements.

12. INCOME TAX

Income Tax comprises current tax and deferred tax for the year. The deferred tax assets / liability is recognised in accordance with Accounting Standard 22 issued by the Institute of Chartered Accountants of India.

13. NET PROFIT

The Net Profit disclosed in the Profit and Loss Account is after considering :

a. Provision for taxes on income in accordance with statutory requirements.

b. Provision for Standard Assets and Non-Performing Assets.

c. Provision for depreciation on Investments.

d. Other usual and necessary provisions.

14. PROPOSED DIVIDEND

In term of AS 4 - "Contingencies and Events occurring after the Balance Sheet date" proposed dividend or dividend declared after Balance Sheet date is not shown as "Other Liability" in the Balance Sheet, instead a note on the same will be included in the Financial Statement. Such proposed dividend will be appropriated from the "Reserves and Surplus" only after the approval of the shareholders.

15. SPECIAL RESERVES

Revenue and other Reserve include Special Reserve created under Section 36(i)(viii) of the Income Tax Act, 1961 with the approval of the Board of Directors of the Bank.

16. CORPORATE SOCIAL RESPONSIBILITY

The expenditure towards Corporate Social Responsibility in accordance with the Companies Act, 2013 is recognised in the Profit and Loss Account.

17. OPERATING LEASES

Leases where all the risks and rewards of ownership are retained by the lessor are classified as 'Operating Lease'. Operating Lease payments are recognised as an expense in the Profit and Loss Account as per the lease terms. Initial direct costs in respect of operating leases such as legal costs, brokerage costs etc., are recognised as expense in the Profit and Loss Account.

The above classification has been made on the basis of the guidelines of RBI and certain assumptions made by management and have been relied upon by auditors.

b. Liquidity Coverage Ratio (LCR)

Liquidity Coverage Ratio has been prescribed by RBI based on LCR Standards published by Basel Committee on Banking Supervision (BCBS). The LCR promotes short term resilience of banks to potential liquidity disruptions by ensuring that they have sufficient High Quality Liquid Assets (HQLAs) to survive an acute stress scenario in the immediate 30 days period.

LCR is defined as

$$\frac{\text{Stock of High Quality Liquid Assets (HQLA)}}{\text{Total Net Cash Outflows over the next 30 calendar days}} >= 100\ \%$$

The LCR standard aims to ensure that a Bank maintains an adequate level of unencumbered HQLAs that can be converted into cash to meet its liquidity needs for the next 30 days period under a significantly severe liquidity stress scenario specified by RBI.

The LCR guidelines was made effective from 01.01.2015 with a minimum requirement of 60% which was increased annually by 10% to reach a level of 100% as at 01.01.2019. The present minimum requirement of LCR as at 31st March, 2026 is 100%. The bank prepares LCR on a daily basis and assess the liquidity position on an ongoing basis. The LCR position is made available in Bank's website on a quarterly basis in prescribed format in addition to the annual disclosure in notes to accounts. The disclosure in prescribed format is given below:

Qualitative disclosures on LCR :

- Composition: The main drivers of the LCR is High Quality Liquid Assets (HQLA) which can be easily converted into cash and consists of Cash in hand, Excess CRR balance as on that particular day, Government Securities in excess of minimum SLR requirement, Government Securities within the mandatory SLR requirement to the extent allowed by RBI under MSF (Presently to the extent of 2.00% of NDTL as allowed for MSF), Facility to avail liquidity for liquidity coverage ratio at 16.00% of NDTL. Level 1 assets are main drivers of HQLA.
- Concentration of funding sources: Deposits are the main funding sources of the bank.
- Currency mismatches in LCR: The bank does not have any HQLA in foreign currency and accordingly LCR is reported in single currency only.

- The bank does not have any subsidiary / associates and does not belong to any Group.
- The Bank has a well-diversified funding portfolio. Retail deposits, considered as stable is the major funding source of the Bank, indicating lower dependence of the Bank on wholesale funds.
- The Liquidity risk management in the Bank is guided by the ALM Policy. The Bank's Liquidity management is centralized at Treasury, Chennai as per the directions of ALCO.

The Bank has been maintaining the LCR above 100% (which is the minimum requirement prescribed by RBI). The bank has also implemented the revised RBI guidelines on LCR dated 21.04.2025, subsequently updated under Chapter-V of Master Direction on Asset Liability Management dated 28.11.2025 with effect from 01.04.2026. The LCR Disclosure Template for the Year ended FY 2026 is given below.

c. Net Stable Funding Ratio (NSFR)

RBI vide its draft circular dated May 28, 2015 has prescribed norms for introduction of Net Stable Funding Ratio (NSFR). The final guidelines on "Net Stable Funding Ratio (NSFR)" under the Basel III Framework on Liquidity Standards was issued by RBI on May 17, 2018. Now, the NSFR is computed as per chapter VI of Master Direction on Asset Liability Management dated 28.11.2025.

LCR & NSFR for funding liquidity were prescribed by the Basel Committee for achieving two separate but complementary objectives. While LCR promotes short-term resilience of Banks to potential liquidity disruptions by ensuring that they have sufficient HQLAs to survive an acute stress scenario lasting for 30 days, the NSFR promotes resilience over a longer-term time horizon by requiring Banks to fund their activities with more stable sources of funding on an ongoing basis.

The NSFR is defined as the amount of Available Stable Funding (ASF) relative to the amount of Required Stable Funding (RSF). The Bank is maintaining NSFR of above 100%, which is the minimum requirement prescribed by RBI.

$$\text{Net Stable Funding Ratio} = \frac{\text{Available Stable Funding (ASF)}}{\text{Required Stable Funding (RSF)}} >= 100\%$$

d) Disclosures on Risk Exposure in Derivatives :

i) Qualitative Disclosure

1. Structure and Organisation for Management of risk in derivatives trading.

Operations in the Treasury are segregated into three functional areas, namely Front office, Mid-office and Back-office, equipped with necessary infrastructure and trained officers, whose responsibilities are well defined. The Bank enters into plain vanilla forward contracts only to backup/cover customer transactions as also for proprietary trading purpose. The Bank also enters into trades in exchange traded currency futures for proprietary trading purpose.

The Integrated Treasury policy of the Bank clearly lays down the scope of usages, approval process as also the limits like the open position limits, deal size limits and stop loss limits for trading.

The Mid Office is handled by Risk Management Department. Daily report is generated by Risk Management department for appraisal of the risk profile to the senior management for Asset and Liability management.

2. Scope and nature of risk measurement, risk reporting and risk monitoring systems.

Outstanding forward contracts are monitored by Risk Management Department against the limits

(Counterparty, Stop Loss, Open Position, VaR, Aggregate Gap) fixed by the Board and approved by RBI (wherever applicable) and exceedings, if any, are reported to the Appropriate Authority / Board for ratification.

3. **Policies for hedging and / or mitigating and strategies and processes for monitoring the continuing effectiveness of hedges / mitigants.**

The Bank's policy lays down that the transactions with the corporate clients are to be undertaken only after the inherent credit exposures are quantified and approved for customer appropriateness and suitability and necessary documents like ISDA agreements etc. are duly executed. The Bank adopts Current Exposure Method for monitoring the credit exposures.

While sanctioning the limits, the competent authority stipulates condition of obtaining collaterals / margin as deemed appropriate. The derivative limits are reviewed periodically along with other credit limits.

4. **Accounting policy for recording the hedge and non-hedge transactions, recognition of Income premiums and discounts, valuation of outstanding contracts, provisioning, collateral and credit risk mitigation.**

Valuation of outstanding forward contracts are done as per FEDAI guidelines in force. Marked to market profit & loss are taken to Profit & Loss account. MTM profit & loss calculated as per Current Exposure method are taken into account while sanctioning forward contract limits to customers and collaterals/cash margins are prescribed for credit and market risks. Exchange traded Currency futures are market to market on daily basis and MTM gain/losses to Profit and Loss account.

The Bank undertakes foreign exchange forward contracts for its customers and hedges them with other banks. The credit exposure on account of forward contracts is also considered while arriving at the total exposure of each customer/borrower and counter party banker. The bank also deals with other banks in proprietary trading duly adhering to risk limits permitted by RBI, set in the policy and is monitored by mid office. The Marked to Market values are monitored on monthly basis for foreign exchange forward contracts. The credit equivalent is computed under current exposure method. The operations are conducted in terms of the policy guidelines issued by Reserve Bank of India from time to time and as approved by the Board of the Bank.

11) **Disclosure under rule 11(e) of the Companies (Audit & Auditors) rules, 2014**

The Bank, as part of its normal business, grants loans and advances to Non-Banking Finance Company/ies, real estate promoters/developers, makes investment, provides guarantees (including against margin/guarantees received from third parties/banks) and accepts deposits and borrowings from its customers, other entities and persons. Also, the Bank, as part of its normal business, avails refinance from financial institutions and other entities wherein the proceeds are applied to a category of customers with specific profile parameters. These transactions are part of Bank's authorised normal business, which is conducted in adherence to extant regulatory requirements.

Other than the transactions described above -

i) No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Bank to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend to or invest in other persons or entities identified by or on behalf of the Bank ("Ultimate Beneficiaries") or provide any guarantee, security or like on behalf of the Ultimate Beneficiaries.

ii) The Bank has not received any funds from any person(s) or entity(ies) ("Funding Party") with the understanding, whether recorded in writing or otherwise, that the Bank shall, whether, directly or indirectly, lend to or invest in other persons or entities identified by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

12) In accordance with RBI instruction, the Bank has made a provision of 5% amounting to ₹ 2.32 cr against exposure in the long-term food credit advance to Punjab State Government.

13) As per the extant RBI guidelines, Banks are required to make Pillar III disclosures including leverage ratio, liquidity coverage ratio, Net Stable Funding Ratio (NSFR) under the BASEL III framework along with publication of financial results. Accordingly, such applicable disclosures under Basel III capital regulation is being made available on the Bank's website (www.cityunionbank.bank.in). These disclosures have not been subjected to Audited by the Joint Statutory Central Auditors.

14) Other Income relates to income from non-fund based banking activities including commission, fees, gains from securities transactions including profit / loss on revaluation of Investments, ATM sharing fees, recoveries from accounts written off and other miscellaneous income.

15) On November 21,2025, the Government of India notified four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the code on Social Security, 2020, and the occupational safety, Health and working conditions code 2020, collectively referred to as 'New Labour Codes', consolidating 29 existing labour laws. The Bank has recognised an estimated provision of ₹ 500 Lakhs under 'Employees cost' as on March 31, 2026. The Bank continues to monitor the developments relating to implementation of the New Labour Code / Rules and will review the estimation on an ongoing basis.

16) The Board of directors recommended a Dividend of ₹ 2 per share on face value of ₹ 1 per equity share @ 200% for the year ended March 31,2026 (Previous year 200%) subject to approval of members in the ensuing Annual General Meeting. In accordance with Accounting Standards 4 - Contingencies and Events Occurring after the Balance Sheet date, the proposed dividend has not been shown as an appropriation from the Profit and Loss account for the year ended March 31, 2026 and correspondingly not reported under Other Liabilities and Provisions as at March 31, 2026. However, capital adequacy ratio has been computed by reducing the proposed dividend.

17) Previous year's figures have been regrouped wherever necessary to conform to the current year classification.

CAPITAL ADEQUACY

Qualitative Disclosures :

A. A summary discussion of the Bank's approach to assessing the adequacy of its capital to support current and future activities.

In order to strengthen the capital base of banks in India, the Reserve Bank of India introduced capital adequacy norms in April 1992, based on the Basel I framework issued by the Basel Committee on Banking Supervision (BCBS). Initially, the framework prescribed capital requirements for credit risk, which was subsequently expanded to include market risk. The Bank complied with the minimum capital requirements prescribed for both credit and market risks.

Subsequently, the BCBS released the "International Convergence of Capital Measurement and Capital Standards: A Revised Framework" (popularly known as Basel II document) on June 26, 2004. Reserve Bank of India thereafter issued the final guidelines on April 27, 2007 for implementation of the New Capital Adequacy (Basel II) Framework, which also included capital requirements for Operational Risk. In accordance with the RBI guidelines, the Bank successfully migrated to the Basel II Framework with effect from March 31, 2009.

Further, RBI issued guidelines on Basel III Capital Regulations during May 2012, applicable to banks operating in India. The Basel III framework was implemented in India in a phased manner from April 01, 2013 and originally envisaged full implementation of the Capital Conservation Buffer (CCB) by March 31, 2018. RBI also issued detailed Guidelines on Composition of Capital Disclosure Requirements on May 28, 2013.

Considering the adverse economic conditions and the stress arising out of the COVID-19 pandemic, RBI issued various circulars extending the transitional arrangements for full implementation of Basel III Capital Regulations. Presently, the minimum regulatory capital requirement under Basel III, including the Capital Conservation Buffer, stands at 11.50% (9.00% minimum CRAR plus 2.50% CCB) with effect from October 01, 2021.

RBI also issued circulars on "Prudential Guidelines on Capital Adequacy and Liquidity Standards - Amendments" on March 31, 2015. Subsequently, the Basel III Capital Regulations were consolidated under the Master Circular DOR.CAP.REC.70/21-01.002/2025-26 dated November 28, 2025.

Under the Basel II framework, the total regulatory capital comprised Tier I Capital (core capital) and Tier II Capital (supplementary capital). Basel III places greater emphasis on the quality of capital by predominantly requiring Common Equity Tier I (CET1) capital as the principal component of regulatory capital. Non-equity Tier I and Tier II capital continue to form part of the regulatory capital framework subject to the eligibility criteria prescribed under Basel III.

The Basel III capital regulations continue to be structured around the three-mutually reinforcing Pillars of the Basel II capital adequacy framework, viz. Minimum Capital Requirements (Pillar 1), Supervisory Review of Capital Adequacy (Pillar 2) and Market Discipline through disclosures (Pillar 3).

The key objectives of Basel III include:

- Improving the quality of capital to ensure that the banks are capable of absorbing losses, both as going concern and as gone concern basis.
- Enhancing the risk coverage under the capital framework.
- Introducing a leverage ratio as a supplementary measure to the risk-based capital framework; and
- Strengthening supervisory review processes and disclosure standards.

The macro-prudential elements of Basel III are primarily reflected through capital buffers, namely the Capital Conservation Buffer (CCB) and the Counter Cyclical Capital Buffer (CCCB), which are intended to protect the banking sector during periods of financial stress and economic cycles. At present, the Capital Conservation Buffer framework is in force.

Minimum capital requirements under Basel III:

Under the Basel III Capital Regulations, banks are required to maintain a minimum Pillar 1 Capital (Tier I + Tier II) to Risk Weighted Assets Ratio (CRAR) of 9% on an on-going basis. Besides these minimum capital requirements, Basel III also provides for creation of Capital Conservation Buffer (CCB) and Counter Cyclical Capital Buffer (CCCB).

As per the RBI guidelines mentioned, Capital ratios with full implementation of capital conservation buffer (CCB) of 2.50% is summarized below:

(% to RWA's)

Capital Ratios	March 31, 2016 onwards	March 31, 2017 onwards	March 31, 2018 onwards	October 1, 2021 onwards
Minimum Common Equity Tier I (CET 1)	5.500	5.500	5.500	5.500
Capital Conservation Buffer (CCB)	**0.625**	**1.250**	**1.875**	**2.500**
Minimum CET 1 + CCB	6.125	6.750	7.375	8.000
Additional Tier 1	1.500	1.500	1.500	1.500
Minimum Tier 1 Capital (excluding CCB)	7.000	7.000	7.000	7.000
Tier 2 Maximum allowed	2.000	2.000	2.000	2.000
Minimum Total Capital	9.000	9.000	9.000	9.000
Minimum Total Capital + CCB	9.625	10.250	10.875	11.500

B. The Bank's approach in assessment of Capital Adequacy

The Bank is presently following Standardised Approach for credit risk, Standardised Duration Approach for market risk and Basic Indicator Approach for operational risk for the purpose of computation of capital charge under Basel III Capital regulations. Further, RBI has advised the banks to prepare for migration to the New Standardised Approach for computation of capital charge for Operational Risk vide 'Master Direction on Minimum Capital Requirements for Operational Risk' dated June 26, 2023. In terms of the said Master Direction, RBI had called for submission of operational risk data as on 31.03.2025 and the required data was submitted by the Bank during June 2025. Based on the revised methodology for computation of capital charge under the proposed framework, the operational risk capital requirement has shown a decline, resulting in reduction in Risk Weighted Assets (RWA) and a marginal improvement in the Capital to Risk Weighted Assets Ratio (CRAR). Apart from computation of CRAR under Pillar I requirements, the Bank also carries out periodic stress testing across various risk areas to assess the impact of stressed scenarios and plausible adverse events on asset quality, liquidity, profitability and capital adequacy. Further, the Bank undertakes the Internal Capital Adequacy Assessment Process (ICAAP) annually to evaluate the adequacy of its capital funds in relation to the risks covered under Pillar I and Pillar II of the Basel framework. The ICAAP process also assesses the sufficiency of the Bank's capital to support its projected business growth and future risk profile.

D. Risk Exposure and Assessment :

Risk is an integral part of banking business in an ever-changing environment, which is undergoing significant transformation both in terms of technology and product offerings. The major risks faced by the Bank include credit risk, market risk and operational risk. The Bank aims to maintain an optimum balance between risk and return with a view to maximizing shareholder value while ensuring prudent risk management practices. The relevant information relating to the various categories of risks faced by the banks are furnished in the ensuing sections. These information are intended to provide market participants with a better understanding of the Bank's risk profile, risk management framework and the practices adopted for identification, measurement, monitoring and mitigation of risks.

The Bank has put in place a comprehensive risk management framework to address various risks associated with its business operations and has established an Integrated Risk Management Department (RMD) as an independent operational department for effective risk oversight and monitoring. At the apex level, Bank has constituted a Risk Management Committee of Board functioning for formulating, implementing and reviewing bank's risk management policies and practices pertaining to credit, market and operational risks. In addition to the Risk Management Committee of the Board, the Bank has established a robust enterprise-wide risk management structure comprising the Risk Management Committee of Executives (RMCE), which is assisted by various specialized committees at the senior management level, namely: Asset Liability Management Committee (ALCO), Credit Risk Management Committee (CRMC), Operational Risk Management Committee (ORMC), Model Risk Management Committee (MRMC), Management Committee for Monitoring Frauds (MCMF) and Operational Resilience Committee (ORC).

The Credit Risk Management Committee (CRMC) oversees credit policies, procedures and related risk management aspects. The Asset Liability Management Committee (ALCO) is responsible for Asset Liability Management (ALM) functions, while the Integrated Treasury Policy governs both domestic and foreign treasury operations of the Bank. The Operational Risk Management Committee (ORMC) formulates policies and procedures for identification, assessment, monitoring and mitigation of operational risks. The Model Risk Management Committee (MRMC) evaluates and monitors the performance of various models with a view to minimizing model-related risks and losses. The Management Committee for Monitoring Frauds (MCMF) oversees measures relating to prevention, early detection and timely reporting of frauds to RBI. The Operational Resilience Committee (ORC) focuses on ensuring uninterrupted delivery of critical business services in line with regulatory expectations and customer requirements.

The Bank has formulated the following policies for mitigating the risk in various areas and monitoring the same :

- Integrated Risk Management Policy
- Loan Policy including MSME policy
- Credit Risk Management Policy
- Co-lending Policy
- Operational Risk Management Policy
- ALM Policy
- Integrated Treasury Policy
- Inspection and Audit policy
- KYC policy

- Risk Based Internal Audit Policy
- Stress Testing Policy
- Disclosure Policy
- ICAAP policy
- Credit Risk Mitigation & Collateral Management Policy
- Risk Rating Framework
- Pricing Policy
- New Product Assessment Policy
- Risk & Control Self-Assessment Standards (RCSA)
- Policy on Unhedged Foreign Currency Exposures of Corporates including SMEs
- Market Risk Management Policy
- Business Continuity Plan Policy
- Climate Risk Policy
- Fraud Risk Management Policy
- Model Risk Management Policy
- Digital Lending Policy
- Green Deposit Financing Framework
- Environment & Social risk policy
- Operational Resilience Policy

The structure and organization of Risk Management functions of the Bank is as follows :

CREDIT RISK: GENERAL DISCLOSURES

Credit Risk:

Credit Risk refers to the possibility of losses arising from a diminution in the credit quality of borrowers or counterparties. In a bank's portfolio, credit risk primarily emanates from lending activities, wherein a borrower may fail to meet its financial obligations due to deterioration in credit quality or creditworthiness of borrowers or counterparties.

Credit Risk Management encompasses a range of management techniques that enable banks to mitigate the adverse impact of credit risk. The objective of Credit Risk Management is to identify, measure, monitor and control credit risk through the adoption of appropriate methodologies and prudential practices.

The Bank has formulated a Loan Policy which lays down various prudential norms, benchmarks and guidelines for sanctioning of credit facilities as well as their subsequent monitoring and recovery. In addition, the Bank has also framed a separate Credit Risk Management Policy and a Policy on Credit Risk Mitigation and Collateral Management.

Credit risk is assessed through a robust internal credit risk rating system. Credit rating is a process wherein the strengths and weaknesses of a borrower are evaluated and a score is assigned, enabling the Bank to take a view on the acceptability or otherwise of a credit proposal. Earlier, the Bank used its own internal rating models for borrower assessment. However, since FY 2024-25, the Bank has started rating borrowers with exposures above Rs.50 lakh through ICRA Analytics Limited Rating Solution (IRS 3.0), which computes Probability of Default (PD) and Expected Loss (EL) of the borrower.

The Bank has also digitized its lending processes and credit decisioning through Newgen Software Technologies Limited for retail and corporate lending (MSME and non-MSME segments), and uses BCG scorecards for MSME lending. In addition, the Bank has engaged fintech partners such as ScoreMe, Perfios (for Credit Assessment Reports), Hunter/Experian (for fraud assessment of borrowers), and Legality (for digital signing and documentation) etc. for specific credit risk assessment, underwriting support, fraud evaluation and digital documentation processes.

Credit Risk Management Policy:

The Bank has put in place a well-structured Credit Risk Management Policy duly approved by the Board. The Policy document defines the organizational structure, roles and responsibilities, and the processes through which credit risk is identified, measured, monitored and managed. Credit risk is monitored on a bank-wide basis, and compliance with the risk limits approved by the Credit Risk Management Committee (CRMC) / Board and is being reviewed periodically.

The Bank adopts the definition of 'past due' and 'impaired credits' (for reporting purposes) as defined by Reserve Bank of India under Income Recognition, Asset Classification and provisioning (IRAC) norms (vide RBI Master Circular dated Nov 28, 2025).

CREDIT RISK : DISCLOSURES FOR PORTFOLIO SUBJECT TO THE STANDARDISED APPROACH

Qualitative Disclosures:

The Bank accepts ratings assigned by External Credit Rating Agencies approved by the Reserve Bank of India, namely CRISIL, ICRA, CARE, India Ratings & Research Pvt Ltd., Acuite Ratings & Research Ltd., Infomerics Valuation and Rating Pvt Ltd., and Brickwork Ratings, to facilitate corporate borrowers in obtaining credit ratings.

Borrowers who have not obtained ratings from any of the approved external credit rating agencies are treated as "unrated" for regulatory and risk-weight computation purposes.

The Bank computes risk weights based on external ratings assigned to borrowers, both for long-term and short-term facilities. These ratings are generally facility-specific and are used in accordance with Basel III guidelines. The Bank follows the procedures prescribed under Basel III norms for the use of external ratings in risk weight computation and capital adequacy assessment.

- Rating assigned by any of the applicable rating agency is used for all the types of claims on the borrowing entity. In case of availability of rating of more than one rating agency, the least among the rating is taken.
- Long-term ratings are used for facilities with contractual maturity of one year & above.
- Short-term ratings are generally applied for facilities with contractual maturity of less than one year.

Quantitative Disclosures:

The exposures, after risk mitigation under the Standardised Approach (both rated and unrated), classified into the three major risk buckets, along with exposures deducted as part of risk mitigation, are given below.

CREDIT RISK MITIGATION: DISCLOSURES FOR STANDARDISED APPROACHES

Qualitative Disclosures:

The Bank has put in place Credit Risk Mitigation and Collateral Management Policy with the primary objective of

- Mitigating Credit Risks and enhancing awareness on identification and acceptance of appropriate collateral, taking into account the spirit of Basel III / RBI guidelines.
- Optimizing the benefits of Credit Risk Mitigation in the computation of capital charge in accordance with the approaches prescribed under Basel III / RBI guidelines.

Valuation and methodologies are detailed in Credit Risk Management Policy, Valuation Policy and Loan Policy of the Bank.

The Bank recognizes the following Financial Collateral (FC) for Credit Risk Mitigation.

a) Cash or Cash equivalent (Bank Deposits /Certificate of Deposits issued by the Bank, etc.)

b) Gold Jewellery including gold coins specially minted by Banks (the value of gold jewellery and coins shall be arrived at after converting it notionally to 99.99 purity)

c) Kisan Vikas Patras *

d) National Savings Certificates *

(* - Provided no lock in period is operational and if they can be encashed within the holding period)

e) Life Insurance Policies with a declared surrender value

f) Securities issued by the Central and State Governments

g) Debt securities rated by an approved Credit Rating Agency, in respect of which the Bank should be sufficiently confident about the market liquidity where such securities are either:

  - Attracting 100% or lesser risk weight i.e., rated atleast BBB (-) when issued by public sector entities and other entities (including banks and Primary Dealers); or
  - Attracting 100% or lesser risk weight i.e., rated atleast CARE A3 / CRISIL A3 / India Ratings and Research Private Limited (India Ratings) A3 / ICRA A3 / Brickwork A3 / Acuite A3 / IVR A3 (INFOMERICS) in respect of short-term debt instruments.

  - Debt securities though not rated by Credit Rating Agency, where
  - The securities are issued by a bank;
  - The securities are listed on a recognized stock exchange;
  - The securities are classified as senior debt;
  - All rated issues of the same seniority by the issuing bank are rated atleast BBB (-) or CARE A3 / CRISIL A3 / India Ratings and Research Private Limited (India Ratings) A3 / ICRA A3 / Brickwork A3 / Acuite A3 / IVR A3 (INFOMERICS) by a chosen Credit Rating Agency;
  - The Bank holding the securities as collateral has no information to suggest that the issue warrants a rating below BBB (-) or CARE A3/CRISIL A3/ India Ratings and Research Private Limited (India Ratings) A3 /ICRA A3/Brickwork A3/ Acuite A3 / IVR A3 (INFOMERICS), as applicable and
  - The Bank is sufficiently confident about the market liquidity of the security.

h) Units of Mutual Funds regulated by the securities regulator of the jurisdiction of the bank's operation where

  - a price for the units is publicly quoted daily i.e., where the daily NAV is available in public domain and
  - Mutual fund is limited to investing in the instruments listed above

The Bank accepts guarantees from individuals with considerable net worth and the Corporates, besides guarantee issued by Government, other Commercial Banks, ECGC, CGSE and CGTSI.

Concentration Risk in Credit Risk Mitigation: All types of securities eligible for mitigation are easily realizable financial securities. At present, a ceiling of 35% of Gross Advances in respect of Gold Jewels (financial collateral) has been prescribed in order to address the concentration risk in credit risk mitigants recognized by the bank. The portion of advances subjected to CRM including non-funded advances amounted to 29.47% of outstanding total of funded and non-funded credit. The Bank has ensured legal certainty in the matter of credit risk mitigation as per RBI guidelines.

MARKET RISK IN TRADING BOOK

Qualitative Disclosures:

Market Risk in trading book is assessed as per the Standardised Duration Approach. The capital charge for both investments and foreign exchange exposure is computed as per Reserve Bank of India prudential guidelines based on the circular dt. November 28, 2025.

a. Definition of Market Risk:

Market Risk refers to the potential losses arising from volatility in interest rates, foreign exchange rates, equity prices and commodity prices. Market Risk arises with respect to all Market Risk Sensitive Financial Instruments, including Securities, Foreign Exchange Contracts, Equity and Derivative Instruments as well as from Balance Sheet or Structural Positions.

b. Portfolios covered under Standardised Approach:

The bank's portfolio comprises of Government securities, equity shares and forex portfolio.

c. Strategies and processes:

1. The Bank has put in place a Comprehensive Market Risk Management Framework to address the Market Risks (Bank Wide) including that of the Trading Book.
2. Within the above framework, various policies of the Bank prescribes Limits like Value at Risk (VaR), Duration, Minimum holding level for Liquid Assets, Exposure limits, Forex Open Position Limits (day light/overnight), Stop-Loss Limits etc.
3. Risk profiles are analyzed and the effectiveness of risk mitigants is regularly monitored through Mid Office.
4. Adherence to limits are being monitored by dedicated Mid Office, which reports exceptions to the head of the Risk Management Department, independent of Treasury /IBD operational units.

d. Risk Measurement:

1. Value at Risk (VaR) numbers is arrived for Equity Portfolio and Foreign Exchange Position.
2. The positions are marked to market at stipulated intervals. The Duration /Modified Duration for Trading Book is computed and its adherence to the prescribed duration limits is ensured.
3. The Bank is computing capital charge for both investments and foreign exchange exposure categories using Standardised Duration Approach as required under RBI guidelines.
4. Stress Testing Analysis is done by applying rate shocks on investment portfolio and also on foreign exchange open position.

OPERATIONAL RISK

Qualitative Disclosures:

Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational Risk includes Legal Risk but excludes Strategic and Reputational Risks.

The Bank has put in place Operational Risk Management Policy duly approved by the Board. This Policy outlines the Organisation Structure and covers the process of Identification, Assessment /Measurement and control of various Operational Risks.

The other policies adopted by the Bank which deal with the management of operational risks are Inspection Policy, Information Security Audit Policy and Policy on Modified Code of Conduct for Know Your Customer & Anti-Money Laundering Standards.

Operational Risks in the Bank are managed through comprehensive and well-articulated internal control framework. Operational risk is mitigated by effecting suitable insurance coverage wherever necessary. The Bank has also put in place a compliance cell to supervise KYC & AML guidelines and off site monitoring of high value transactions. For accounting operations in the computerized environment, suitable internal control system is maintained and a separate policy on I.T. Security is in place specifying the internal guidelines on access, control, communications, operations, personal security, business continuity management etc. Bank has made tie up arrangements with HDFC ERGO General Insurance Company Ltd for Insurance coverage for Cyber security, crime & signature management plus liability insurance (3 policies) for ₹325.00 crore.

Quantitative Disclosures:

Capital charge for Operational Risk is computed as per the Basic Indicator Approach based on 15% of the average of the gross income for the previous three years i.e. 2022-23, 2023-24 & 2024-25 as defined in the Master Circular on Basel III Capital Regulations of RBI dated November 28, 2025. The capital charge for operational risk is arrived at ₹434.49 crore.

Table DF - 9

INTEREST RATE RISK IN THE BANKING BOOK (IRRBB)

Qualitative Disclosures:

Interest Rate Risk is the risk where changes in the market interest rates might affect a bank's financial condition. Changes in interest rates affect both the current earnings (earnings perspective) as also the net-worth of the Bank (economic value perspective). The risk from earnings perspective can be measured as impact in the Net Interest Income (NII) or Net Interest Margin (NIM). Similarly, the risk from economic value perspective can be measured as drop in the Economic value of Equity (EVE).

The impact on income (earning perspective) is measured through use of Gap Analysis by applying notional rate shock up to 200 bps as prescribed.

For the calculation of impact on earnings, the Traditional Gap is taken from the Rate Sensitivity statement and based on the remaining period from the mid-point of a particular bucket, the impact for change in interest rates up to 200 bps is arrived at for one year time horizon.

The Bank has adopted Duration Gap Analysis for assessing the impact (as a percentage) on the Economic Value of Equity (Economic Value Perspective) by applying a notional interest rate shock of 200 bps. As per the RBI Guidelines on Banks "Asset Liability Management" Directions, 2025 DOR.LRG.No.82/13-10-001/2025-26 dated November 28, 2025, the Bank calculates Modified Duration Gap (DGAP) & the impact on the Economic Value of Equity (EVE). Assets and Liabilities are grouped as per Interest Rate Sensitivity Statement & bucket wise Modified Duration is computed for these groups of Assets and Liabilities using account level coupon and yields as per yield curve suggested by RBI.

Quantitative Disclosures:

a. The impact of change in Interest Rate i.e. Earnings at Risk for 200 bps interest rate shock as on March 31, 2026 is ₹247.82 crore.

b. The impact of change in market value of Equity for an interest rate shock of 200 bps as on March 31, 2026 is 5.93%.

Table DF - 10

GENERAL DISCLOSURES FOR EXPOSURES RELATED TO COUNTERPARTY CREDIT RISK

Counterparty Credit Risk (CCR) is the risk that a counterparty to a transaction could default before the final settlement of the transaction cash flows. Unlike credit risk arising from a loan, where the exposure is unilateral and only the lending bank is exposed to the risk of loss, CCR creates a bilateral risk of loss, where either party to the transaction may be exposed to potential loss.

Counterparty credit risk in case of derivative contracts arises from the forward contracts. The subsequent credit risk exposures depend on the value of underlying market factors (e.g., interest rates and foreign exchange rates), which are inherently volatile and uncertain in nature. The Bank does not enter into derivative transactions other than forward contracts.

Credit exposures on forward contracts:

The Bank enters into the forward contracts in the normal course of business for proprietary trading and arbitrage purposes, as well as for its own risk management needs, including mitigation of interest rate and foreign exchange risk. Derivative exposures are computed using the current exposures method.

Counterparty Credit exposure as on March 31, 2026 (₹ in crore)

Nature	Notional Amount	Potential Exposure @2%/10%	Current Exposure	Total credit Exposure	Total RWA
Forward contracts	13,258.05	200.68	254.10	454.78	35.89

The capital requirement for Bank's exposure to Qualified Central Counter Party (QCCP) has been computed in respect of exposure to Clearing Corporation of India (CCIL) as on March 31, 2026, amounting to ₹ 2,122.73 crore with corresponding risk weighted assets of ₹ 424.55 crore, which forms part of total credit risk weighted assets. As per RBI extent guidelines, the Credit Valuation Adjustment (CVA) risk capital charge has been computed, which amounted to ₹ 0.76 crore and the corresponding risk weighted value of ₹ 9.55 crore has also been included in the total credit risk weighted assets.

EQUITIES - DISCLOSURE FOR BANKING BOOK POSITIONS

Qualitative Disclosures:

As per RBI Master Direction - Classification, Valuation and Operation of Investment Portfolio of Commercial Banks (Directions) dt. November 28, 2025, investments will be classified as below

- Fair Value through Profit and loss (FVTPL),
- Available for Sale (AFS) and
- Held to Maturity (HTM)
- Held for Trading (HFT) is a separate investment sub-category within FVTPL.
- All investments in Subsidiaries, Associates and Joint ventures are classified under Subsidiaries, Associates and Joint ventures in accordance with RBI guidelines.

In line with RBI guidelines, investments in HTM, AFS, and FVTPL (non-HFT) categories, as well as investments in Subsidiaries, Associates, and Joint ventures, are classified under the banking book.

Any gain or loss on sale of equity instruments designated under AFS shall be transferred from the AFS reserve to the capital reserve. In case of equity investment classified under FVTPL, gain or loss on sale shall be recognized in profit and loss account. Valuation gains or losses arising from investment under AFS are recognized in AFS reserve, whereas those under FVTPL is recognized in profit and loss account. Bank does not hold equity positions in HTM Category or in Subsidiaries, Associates or Joint ventures.

LEVERAGE RATIO

Leverage ratio is a non-risk based measure of all exposures for the Tier-I Capital. The Leverage Ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. The Basel III Leverage Ratio is defined as the capital measure (the numerator) divided by the exposure measure (the denominator), with this ratio expressed as a percentage.

Previously, the indicative benchmark Leverage Ratio prescribed was 4.50% (minimum), which has been reduced to 3.50% (minimum) as per the RBI circular on "Basel III Capital Regulations - Implementation of Leverage Ratio", vide DBR.BP.BC.No.49/21.06.201/2018-19 dated June 28, 2019.

$$\textit{Leverage Ratio} = \frac{\textit{Capital Measure (Tier I Capital)}}{\textit{Exposure Measure}}$$
